(Dispositions générales)

Remarque : Depuis le 1^{er} janvier 1996, le Règlement 708 a été modifié par le Règlement de l'Ontario 83/96. Pour les modifications antérieures, voir la Table des Règlements qui figure dans les Lois de l'Ontario de 1995.

1. L'article 14 du Règlement 708 des Règlements refondus de l'Ontario de 1990 est modifié par adjonction des paragraphes suivants :

(10.1) Le retrait de fonds d'un compte en fiducie visé au paragraphe (8) peut se faire par télévirement.

(10.2) Le retrait de fonds d'un compte en fiducie par télévirement ne peut se faire que conformément aux paragraphes (10.3) à (10.7).

(10.3) Le retrait de fonds d'un compte en fiducie par télévirement ne peut se faire que si les conditions suivantes sont réunies :

1. Le système de télévirement utilisé par le membre ne doit permettre le télévirement de fonds que si :

i. d'une part, une seule personne entre dans le système, en utilisant un mot de passe ou un code d'accès, les données relatives au virement,

ii. d'autre part, une autre personne entre dans le système, en utilisant un autre mot de passe ou code d'accès, les données qui autorisent l'institution financière à effectuer le virement.

2. Le système de télévirement utilisé par le membre doit produire, au plus tard à la fermeture du jour ouvrable qui suit le jour où le télévirement de fonds est autorisé, une confirmation de l'institution financière qui indique que les données relatives au virement et autorisant l'institution financière à effectuer le virement ont été reçues.

3. La confirmation exigée par la disposition 2 doit comprendre les renseignements suivants :

i. le numéro du compte en fiducie duquel les fonds sont retirés,

ii. le nom, la succursale et l'adresse de l'institution financière où se trouve le compte dans lequel les fonds sont virés,

iii. le nom de la personne ou de l'entité au nom de qui est gardé le compte dans lequel les fonds sont virés,

 - v. the time and date that the data describing the details of the transfer and authorizing the financial institution to carry out the transfer are received by the financial institution, and
 - vi. the time and date that the confirmation from the financial institution is sent to the member.
4. Before any data describing the details of the transfer or authorizing the financial institution to carry out the transfer is entered into the electronic trust transfer system, an electronic trust transfer requisition in a form prescribed by the rules must be signed by,
- i. a member, or
 - ii. in exceptional circumstances, a person who is not a member if the person has signing authority on the trust account from which the money will be drawn and is bonded in an amount at least equal to the maximum balance on deposit during the immediately preceding fiscal year of the member in all trust accounts on which signing authority has been delegated to the person.
5. The data entered into the electronic trust transfer system describing the details of the transfer and authorizing the financial institution to carry out the transfer must be as specified in the electronic trust transfer requisition.

(10.4) Paragraph 1 of subsection (10.3) does not apply to a member who practises law without another member as a partner and without another member or person as an employee, if the member himself or herself enters into the electronic trust transfer system both the data describing the details of the transfer and the data authorizing the financial institution to carry out the transfer.

(10.5) In exceptional circumstances, the data referred to in subsection (10.4) may be entered by a person other than the member, if the person has signing authority on the trust account from which the money will be drawn and is bonded in an amount at least equal to the maximum balance on deposit during the immediately preceding fiscal year of the member in all trust accounts on which signing authority has been delegated to the person.

(10.6) Not later than the close of the banking day immediately after the day on which the confirmation required by paragraph 2 of subsection (10.3) is sent to a member, the member shall,

- (b) compare the printed copy of the confirmation and the signed electronic trust transfer requisition relating to the transfer to verify whether the money was drawn from the trust account as specified in the signed requisition;
- (c) indicate on the printed copy of the confirmation the name of the client, the subject matter of the file and any file number in respect of which money was drawn from the trust account; and
- (d) after complying with clauses (a) to (c), sign and date the printed copy of the confirmation.

(10.7) In exceptional circumstances, the tasks required by subsection (10.6) may be performed by a person other than the member, if the person has signing authority on the trust account from which the money will be drawn and is bonded in an amount at least equal to the maximum balance on deposit during the immediately preceding fiscal year of the member in all trust accounts on which signing authority has been delegated to the person.

- iv. le numéro du compte dans lequel les fonds sont virés,
- v. l'heure et la date auxquelles l'institution financière reçoit les données relatives au virement et autorisant l'institution financière à effectuer le virement,
- vi. l'heure et la date auxquelles l'institution financière envoie la confirmation au membre.

4. Avant l'entrée, dans le système de télévirement de fonds en fiducie, des données relatives au virement ou autorisant l'institution financière à effectuer le virement, une demande de télévirement de fonds en fiducie rédigée selon la formule prescrite par les règles doit être signée, selon le cas :

- i. par un membre,
- ii. dans des circonstances exceptionnelles, par une personne autre qu'un membre si elle est un signataire autorisé du compte en fiducie duquel seront retirés les fonds et qu'elle a fourni un cautionnement pour un montant au moins égal au solde maximal des sommes déposées, au cours de l'exercice précédent du membre, dans tous les comptes en fiducie à l'égard desquels la personne a reçu l'autorisation de signer.

5. Les données entrées dans le système de télévirement de fonds en fiducie qui sont relatives au virement et qui autorisent l'institution financière à effectuer le virement doivent être celles que précise la demande de télévirement de fonds en fiducie.

(10.4) La disposition 1 du paragraphe (10.3) ne s'applique pas au membre qui pratique le droit sans avoir un autre membre comme associé ni un autre membre ou une autre personne comme employé, si le membre entre lui-même, dans le système de télévirement de fonds en fiducie, les données relatives au virement et celles autorisant l'institution financière à effectuer le virement.

(10.5) Dans des circonstances exceptionnelles, une personne autre que le membre peut entrer les données visées au paragraphe (10.4), si elle est un signataire autorisé du compte en fiducie duquel seront retirés les fonds et qu'elle a fourni un cautionnement pour un montant au moins égal au solde maximal des sommes déposées, au cours de l'exercice précédent du membre, dans tous les comptes en fiducie à l'égard desquels la personne a reçu l'autorisation de signer.

(10.6) Au plus tard à la fermeture du jour ouvrable qui suit le jour où la confirmation exigée par la disposition 2 du paragraphe (10.3) lui est envoyée, un membre :

- a) produit une copie imprimée de la confirmation;
- b) compare la copie imprimée de la confirmation et la demande de télévirement de fonds en fiducie signée qui porte sur le virement pour vérifier si les fonds ont été retirés du compte en fiducie comme le précise la demande signée;
- c) inscrit sur la copie imprimée de la confirmation le nom du client, le sujet du dossier et tout numéro de dossier à l'égard duquel des fonds ont été retirés du compte en fiducie;
- d) après s'être conformé aux alinéas a) à c), signe et date la copie imprimée de la confirmation.

(10.7) Dans des circonstances exceptionnelles, une personne autre que le membre peut exécuter les tâches exigées par le paragraphe (10.6), si elle est un signataire autorisé du compte en fiducie duquel seront retirés les fonds et qu'elle a fourni un cautionnement pour un montant au moins égal au solde maximal des sommes déposées, au cours de l'exercice précédent du membre, dans tous les comptes en fiducie à l'égard desquels la personne a reçu l'autorisation de signer.

(b) in respect of a cycle, is registered for classroom instruction for an average of at least 210 minutes per school day;

"half-time pupil" means a pupil who,

(a) is enrolled in junior kindergarten or kindergarten, and

(b) in respect of a cycle, is registered for classroom instruction for an average of at least 150 minutes per school day;

"part-time pupil" means a pupil who is enrolled in day school and is neither a full-time nor a half-time pupil.

2. Day school average daily enrolment for a board for a year is the sum of,

(a) the product of 0.5 and the sum of,

(i) the number of full-time pupils enrolled on the last school day in March in the year,

(ii) 0.5 times the number of half-time pupils enrolled on that day, and

(iii) the quotient obtained by determining, for each part-time pupil enrolled on that day, the number of minutes for which the pupil is registered for classroom instruction in the cycle that includes that day in a course other than an independent study course and dividing the sum of the numbers so determined by the product of 300 and the number of days in the cycle;

(b) the product of 0.4 and the sum of,

(i) the number of full-time pupils enrolled on the last school day in October in the year,

(ii) 0.5 times the number of half-time pupils enrolled on that day, and

(iii) the quotient obtained by determining, for each part-time pupil enrolled on that day, the number of minutes for which the pupil is registered for classroom instruction in the cycle that includes that day in a course other than an independent study course and dividing the sum of the numbers so determined by the product of 300 and the number of days in the cycle;

(c) the product of 0.1 and the sum of,

(i) the number of full-time pupils enrolled on the last school day in October in the previous year,

(ii) 0.5 times the number of half-time pupils enrolled on that day, and

(iii) the quotient obtained by determining, for each part-time pupil enrolled on that day, the number of minutes for which the pupil is registered for classroom instruction in the cycle that includes that day in a course other than an independent study course and dividing the sum of the numbers so determined by the product of 300 and the number of days in the cycle; and

(d) an amount in respect of each pupil who is enrolled during the year in an independent study course that meets the criteria established by the Minister for inclusion in the determination of day school enrolment, calculated as follows:

$$\frac{A}{7.5} \times B$$

where,

A = the number of credits or the portion of a credit that may be earned by the pupil upon successful completion of the course,

B = the decimal fraction representing the portion of the total quantity of work required for completion of the course that is completed by the pupil during the periods from January 1 to June 30 and September 1 to December 31 in the year.

3. Continuing education average daily enrolment for a board for a year is the sum of,

(a) an amount in respect of each pupil who is enrolled during the year in a continuing education class or course established by the board, other than an independent study course, calculated as follows:

$$\frac{A \times B}{300 \times C}$$

where,

A = the number of sessions for which the pupil is enrolled in the year,

B = the number of minutes in each session,

C = the number of school days in the year; and

(b) an amount in respect of each pupil who is enrolled during the year in an independent study course that does not meet the criteria established by the Minister for inclusion in the determination of day school enrolment, calculated as follows:

$$A \times .1134 \times B$$

where,

A = the number of credits or the portion of a credit that may be earned by the pupil upon successful completion of the course,

B = the decimal fraction representing the portion of the total quantity of work required for completion of the course that is completed by the pupil during the year.

“A.E.F. for apportionment purposes for 1997” for a municipality or locality means the assessment equalization factor provided by the Minister for 1997;

(2) If, for the purpose of a levy in 1997, a municipality is required under any Act to apportion the amount to be raised for municipal purposes among two or more defined areas within the municipality, the amounts requisitioned on the municipality in 1997 by a divisional board, exclusive of payments in lieu of taxes, taxes levied under subsections 159 (12) and (13) of the *Municipal Act* allocated or paid by the municipality to the divisional board, and adjustments required under section 247 of the *Education Act*, shall, for the purpose of the levy in 1997, be apportioned by the municipality among such defined areas in the ratio, correct to five places of decimals, of the equalized assessments for the defined areas to the total equalized assessment of the municipality.

1. Subtract from the current cost of operating of the board that provides the instruction the school-based operating expenditure for elementary school purposes and secondary school purposes.
2. Prorate the remainder from paragraph 1 to elementary school purposes and secondary school purposes in the ratio that the day school A.D.E. of elementary school pupils and the day school A.D.E. of secondary school pupils is to the total day school A.D.E. of the board.
3. Add the amount determined in paragraph 2 for elementary school purposes to the school based operating expenditure for elementary school purposes and subtract the legislative grants payable to the board in respect of elementary school pupils for the eligible sum for French as a first language, the eligible sum for French as a second language, the eligible sum for Native as a second language, the eligible sum for full-day kindergarten and the reduction in class-size in grades 1 and 2 and the grant for pay equity as determined under sections 22 and 30 respectively of Ontario Regulation 78/97 (General Legislative Grants, 1997). Divide that sum by the day school A.D.E. of elementary school pupils.

(4) The fee in respect of a pupil referred to in subsection (1) who is enrolled in a high cost program may be increased by multiplying the fee by a factor agreed upon by the board providing the instruction and the party from whom the fee is receivable.

(5) If the board providing the instruction and the party from whom the fee is receivable cannot agree upon a factor, the factor shall be determined by three arbitrators.

(6) If the fee is in respect of a pupil for whom the Minister pays the cost of education, the three arbitrators shall be,

- (a) multiplying the A.D.E. of pupils in respect of whom fees are receivable by the board from the party by the ratio of the A.D.E. of pupils registered in the high cost program to the A.D.E. of pupils enrolled in schools operated by the board; and
- (b) subtracting the product obtained in clause (a) from the A.D.E. of pupils registered in the high cost program in respect of whom fees are receivable by the board from the party.

(10) The fee in respect of a pupil aged 21 or over and who is referred to in subsection (1) shall be equal to the product of the A.D.E. of the pupil and \$2,257 or such other amount that is agreed upon by the board providing the instruction and the party from whom the fee is receivable.

WHEREAS, having considered the purpose of the Act, the environmental assessment, as accepted, of the undertaking, which is the subject of the attached notice, and that there were no submissions that were received, the undersigned Minister of Environment and Energy is of the opinion that the undertaking should be given approval to proceed, subject to the terms and conditions specified in the attached notice; and

ENVIRONMENTAL ASSESSMENT ACT

NOTICE OF ACCEPTANCE OF THE ENVIRONMENTAL ASSESSMENT

AND

NOTICE OF APPROVAL TO PROCEED WITH THE UNDERTAKING

RE: An Environmental Assessment for Highway 410 Extension from Bovaird Drive (City of Brampton) to Highway 10 (Town of Caledon)

Proponent: Ministry of Transportation

EA File No.: TC-CE-02

TAKE NOTICE that the date for receipt by me of submissions or requirements for a hearing on the above Environmental Assessment and/or its Review, provided for in the *Notice of Completion of Environmental Assessment Review* expired on October 4, 1996. I have received no notices requiring a hearing by the Environmental Assessment Board with respect to the acceptance of the Environmental Assessment and approval to proceed with the undertaking. I do not consider it advisable to require a hearing.

ACCEPTANCE OF THE ENVIRONMENTAL ASSESSMENT

Having considered those matters set out in Section 8 of the Act and having determined that the Environmental Assessment is satisfactory to enable a decision on approval of the undertaking to be made, pursuant to Section 9 of the Act, I accept the environmental assessment.

APPROVAL OF THE UNDERTAKING

Under Section 13 of the Act, before the decision on approval to proceed with the undertaking can be made, the proponent has the opportunity to require a hearing by the Environmental Assessment Board. The proponent has waived this right.

Having considered the purpose of the Act and the environmental assessment of the undertaking as accepted, and no submissions having been received, I hereby give approval to proceed with the undertaking subject to the following terms and conditions:

1. Except as otherwise provided by these conditions, the undertaking shall be carried out in accordance with the provisions of the environmental assessment.
- 2 (1) The design of the Etobicoke Creek crossing will be subject to review and comment by the Metropolitan Toronto and Region Conservation Authority (Authority) staff at the detail design stage. The Ministry of Transportation will consider the Authority's comments within the context of the approved environmental assessment and standard transportation and environmental assessment principles and practices;

- (2) The location of the stormwater management facility which is shown adjacent to the proposed Highway 410 right-of-way on the valleylands will be subject to further siting evaluation and approval by Authority staff at the detail design stage; and,
 - (3) The Design and Construction Reports will be provided to Authority staff for review and comment during detail design.
3. The Ministry of Transportation will, during the detail design of the preferred route, identify a monitoring program for wells within 100 metres of the edge of the right-of-way and shall implement that program.
 4. For the recommended route, a further assessment shall be made of the noise impacts and potential for mitigation at all noise sensitive areas in compliance with the Ministry of Transportation/the Ministry of Environment and Energy Noise Protocol. The results of these studies shall be contained in a Noise Impact Assessment Report which will be submitted to the Director of the Approvals Branch of the Ministry of Environment and Energy. The Director shall provide a response indicating any deficiencies within 60 days of receipt of the "draft" Noise Impact Assessment Report. The "draft" Report shall be modified as may be necessary by the Ministry of Transportation and a "final" Noise Impact Assessment Report be submitted to the satisfaction of the Director at least 90 days prior to construction.
 - 4.1 The Report shall contain a re-assessment of the potential noise impacts at all sensitive locations along the recommended route which could be subject to increases in noise levels of greater than five (5) dB. The report shall specifically address the homes at Sites 7, 19, 21, 22, 32 and 37 as shown in Exhibit 61, Volume 1 of the final Environmental Assessment Report.
 - 4.2 At sites where increases in noise levels will exceed five (5) dB and where the Ministry of Transportation is directly responsible for providing mitigation as stipulated in the Ministry of Transportation/the Ministry of Environment and Energy Noise Protocol, the Report shall contain a description of the control measure(s) which will be applied, the

acoustical effectiveness of those measures and sufficient reasons (technical/economic) if no measures will be applied.

- 4.3 The Report shall also clearly indicate locations where mitigation is the responsibility of the owner or developer of adjoining property.
5. After the approval, unless otherwise advised by the Minister, any change to this undertaking will follow the process set out in section 6.4 of the environmental assessment for addressing new concerns (that is, those not identified in the environmental assessment). The proponent will follow the Provincial Highways Class Assessment process for significant new concerns. Where Class Environmental Assessment provisions are exercised, their application will be limited to new concerns and will not provide the opportunity to re-examine the route location or the balance of design.

REASONS

The reasons for giving approval are:

1. On the basis of the proponent's environmental assessment, the Review and the submissions, the proponent's conclusion that, on balance, the advantages of this undertaking outweigh its disadvantages appears to be valid.
2. On the basis of the proponent's environmental assessment, the Review and the conditions of approval, the construction, operation and maintenance of the undertaking will be consistent with the purpose of the Act (section 2).

Dated at Toronto, this 3rd day of March, 1997.

- (2) An inspector shall affix an official seal to the loading door of a mechanically sealed compartment when the oxygen-content is reduced to satisfy the maximum permitted in the compartment.
5. (1) A mechanically sealed compartment may be opened and the apples removed before the required storage period is over if,

 - (b) the compartment is not opened more than once during the required storage period for the purpose of removing apples.

(2) If a mechanically sealed compartment is opened under this section, the total amount of the time during which the oxygen level is above 5 per cent must be added to the required storage period.

6. The oxygen content of a mechanically sealed compartment may exceed 5 per cent for a period of not more than 10 days if,

- (a) it is necessary to make repairs to the equipment or structure of the compartment; and
- (b) the total storage time starting with the time of compliance with clause 4 (1) (b) is not less than,
 - (i) 70 days, if the operator controlled the oxygen content of the air in the compartment within seven days after the sealing, or
 - (ii) 100 days, otherwise.

7. No person shall mark on any container of apples the words "Controlled-Atmosphere Apples" or the designation "C. A. Apples" or any other words or designation indicating that the apples are Controlled-Atmosphere Apples unless the apples were stored in accordance with this Regulation.

8. (1) An operator who stores apples in a mechanically sealed compartment shall give written notification to the Director and the owner of the apples any time there is a failure to comply with this Regulation in respect of the storage of the apples.

(2) The operator shall give the notification required under subsection (1) as soon as reasonably possible after becoming aware of the failure.

AUDITOR'S REPORT

MUNICIPAL ELECTIONS ACT, 1996 (SECTION 78)

To: _____, candidate

I/we have audited the statement of assets and liabilities and income and expenses of _____, candidate, for the campaign period from _____ to _____ relating to the election held on _____. My/our audit was made in accordance with generally accepted auditing standards and accordingly included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as I/we considered necessary in the circumstances except as explained in the following paragraph.

Due to the nature of the types of transactions inherent in an election campaign, it is impracticable through auditing procedures to determine that the accounting records include all donations of goods and services, and receipts and disbursements. Accordingly, my/our verification of these transactions was limited to ensuring that the financial statements reflect the amounts recorded in the accounting records of _____, candidate, in accordance with the accounting procedures established by the **Municipal Elections Act, 1996** and I was/we were not able to determine whether any adjustments might be necessary to receipts and disbursements.

In my/our opinion, except for the effect of adjustments, if any, which I/we might have determined to be necessary had I/we been able to satisfy myself/ourselves as to the completeness of the records as described in the preceding paragraph, these statements present fairly the information contained in the accounting records on which the statements are based in accordance with the accounting treatment prescribed by the Act.

The Act does not require me/us to report, nor was it practicable for me/us to determine that contributions reported included only those which may be properly retained in accordance with the provisions of the Act.

Rapport du vérificateur

Loi de 1996 sur les élections municipales (Article 78)

Destinataire : _____, candidat

Nous avons vérifié les états de l'actif et du passif et des recettes et des dépenses de _____, candidat, pour la période de campagne électorale allant du _____ au _____ et relative aux élections municipales tenues le _____. Notre vérification a été effectuée conformément aux normes de vérification généralement reconnues et a comporté, par conséquent, un examen général des méthodes comptables ainsi que les sondages des livres comptables et d'autres pièces justificatives que nous avons jugé nécessaires dans les circonstances, sous réserve des précisions présentées dans le paragraphe suivant.

En raison de la nature des opérations menées durant une campagne électorale, les méthodes de vérification ne peuvent vraiment établir si les livres comptables comprennent bien tous les dons de biens et de services et toutes les entrées et sorties de fonds survenus durant la période de campagne électorale. Notre vérification de ces opérations s'est donc limitée à vérifier si les états financiers indiquent fidèlement les sommes inscrites dans les livres comptables de _____, candidat, conformément aux méthodes comptables établies par la Loi de 1996 sur les élections municipales. Nous n'avons pu établir s'il était nécessaire de redresser les entrées et les sorties de fonds.

À notre avis, sous réserve de l'effet des redressements susmentionnés, le cas échéant, que nous aurions trouvé nécessaire d'apporter si nous avions pu nous assurer de l'exhaustivité des livres, telle que nous la définissons au paragraphe précédent, ces états présentent fidèlement l'information contenue dans les livres comptables sur lesquels ils se fondent, conformément à l'application des traitements comptables prévus dans la Loi de 1996 sur les élections municipales.

La Loi ne nous oblige pas à souligner que les contributions déclarées ne comportaient que celles qui peuvent être conservées conformément aux dispositions de la Loi, ce qui nous était d'ailleurs impossible à déterminer.

**DISCLOSURE STATEMENT
FOR RECOGNIZED MARKET OPTIONS**

A high degree of risk may be involved in the purchase and sale of Options, depending to a large measure on how and why Options are used. Options may not be suitable for every investor. See "Risks in Options Trading" and "Additional Information".

Introduction

This Disclosure Statement sets forth general information relevant to the purchase and sale of Put and Call Options traded on a recognized market and cleared through a clearing corporation. Information concerning the underlying interests on which Options are traded, the terms and conditions of these Options, the recognized markets on which they trade and the applicable clearing corporations may be obtained from your broker. Information on investment strategies and possible uses of Options may also be obtained from your broker.

This Disclosure Statement refers only to Options and clearing corporations which have been recognized or qualified for purposes of this Disclosure Statement by provincial securities administrators where required. The Options discussed herein trade on markets which, for the purposes of this Disclosure Statement only, are referred to as "recognized markets".

Nature of an Option

An Option is a contract entered into on a recognized market between a seller (sometimes known as a writer) and a purchaser where all the terms and conditions of the contract (called the "specifications"), other than the consideration (called the "premium") for the Option, are standardized and predetermined by the recognized market. The premium, paid by the purchaser to the seller, is determined in the market on the basis of supply and demand, reflecting such factors as the duration of the Option, the difference between the exercise price of the Option and the market price of the underlying interest, the price volatility and other characteristics of the underlying interest.

There are two types of Options: Calls and Puts. A Call gives the purchaser a right to buy, and a Put the right to sell, a specific underlying interest at a stated exercise price and within a specified period of time or on a specific date. An Option subjects the seller to an obligation to honour the right granted to the purchaser if exercised by the purchaser. Underlying interests can be shares of a specific corporation, bonds, notes, bills, certificates of deposit, commodities, foreign currency, the cash value of an interest in a stock index or any other interest provided for in the specifications.

An Option transaction is entered into on a recognized market by a purchaser and a seller represented by their respective brokers. When the transaction is concluded it is cleared by a clearing corporation affiliated with the recognized market on which the Option is traded. When an Option transaction is cleared by the clearing corporation it is divided into two contracts with the clearing corporation becoming the seller to the purchaser in the transaction and the purchaser to the seller. Thus on every outstanding Option, the purchaser may exercise the Option against the clearing corporation and the seller may be called upon to perform his obligation through exercise of the Option by the clearing corporation.

Options may also be classified according to delivery requirements: actual delivery and cash delivery. An actual delivery Option requires the physical delivery of the underlying interest if the Option is exercised. A cash delivery Option requires a cash payment of the difference between the aggregate exercise price and the value of the underlying interest at a specified time prior or subsequent to the time the Option is exercised.

Options are issued in series designated by an expiration month, an exercise price, an underlying interest and a unit of trading. At the time trading is introduced in Options with a new expiration month, the recognized market on which the Option is traded establishes exercise prices that reflect the current spot prices of the underlying interest. Generally, three series of Options are introduced with exercise prices at, below and above the current spot price. When the spot price of the

underlying interest moves, additional Options may be added with different exercise prices. Options having the same underlying interest and expiration month, but having different exercise prices, may trade at the same time.

Specifications of Options

Specifications of Options are fixed by the recognized market on which they are traded. These specifications may include such items as trading units, exercise prices, expiration dates, last day of trading, and the time for determining settlement values.

An Option may be bought or sold only on the recognized market on which the Option is traded. The recognized market and the clearing corporation may each impose restrictions on certain types of transactions, and under certain circumstances may modify the specifications of outstanding Options. In addition, a recognized market or a clearing corporation may limit the number of Options which may be held by an investor, and may limit the exercise of Options under prescribed circumstances.

Exercising Options

An Option may have either an American style exercise or European style exercise irrespective of where the recognized market is located. An American style Option can be exercised by the purchaser at any time before the expiration. To do this, the purchaser notifies the broker through whom the Option was purchased. A purchaser should ascertain in advance from his broker the latest date on which he may give such notice to his broker. A European style Option may only be exercised by the purchaser on a specified date. Upon receiving an exercise notice from the purchaser's broker, the clearing corporation assigns it to a member which may re-assign it to a client on a random or other predetermined selection basis.

Upon assignment, the seller must make delivery of (in the case of a Call) or take delivery of and pay for (in the case of a Put) the underlying interest. In the case of a cash delivery Option, the seller must, in lieu of delivery, pay the positive difference between the aggregate exercise price and the settlement value of the underlying interest (in the case of both a Call and a Put).

A purchaser of an Option which expires loses the premium paid for the Option and his transaction costs. The seller of an Option which expires will have as his gain the premium received for the Option less his transaction costs.

Trading of Options

Each recognized market permits secondary market trading of its Options. This enables purchasers and sellers of Options to close out their positions by offsetting sales and purchases. By selling an Option with the same terms as the one purchased, or buying an Option with the same terms as the one sold, an investor can liquidate his position (called an "offsetting transaction"). Offsetting transactions must be made prior to expiration of an Option or by a specified date prior to expiration. Offsetting transactions must be effected through the broker through whom the Option was initially sold or purchased.

Price movements in the underlying interest of an Option will generally be reflected to some extent in the secondary market value of the Option and the purchaser who wishes to realize a profit will have to sell or exercise his Option during the life of the Option or on the specified date for exercise, as the case may be.

Costs of Options Trading

Margin Requirements

Prior to trading Options, a seller must deposit with his broker cash or securities as collateral (called "margin") for the obligation to buy (in the case of a Put) or sell (in the case of a Call) the underlying interest if the Option should be exercised. Minimum margin rates are set by the recognized market on which the Option trades. Higher rates of margin may be required by the seller's broker.

Margin requirements of various recognized markets may differ. In addition, they are subject to change at any time and such changes may apply retroactively to Option positions previously established.

Commission Charges

Commissions are charged by brokers on the purchase or sale of Options as well as on the exercise of Options and the delivery of underlying interests.

Risks in Options Trading

Options can be employed to serve a number of investment strategies including those concerning investments in or related to underlying interests. SOME STRATEGIES FOR BUYING AND SELLING OPTIONS INVOLVE GREATER RISK THAN OTHERS.

The following is a brief summary of some of the risks connected with trading in Options:

- (i) Because an Option has a limited life, the purchaser runs the risk of losing his entire investment in a relatively short period of time. If the price of the underlying interest does not rise above (in the case of a Call) or fall below (in the case of a Put) the exercise price of the Option plus premium and transaction costs during the life of the Option, or by the specified date for exercise, as the case may be, the Option may be of little or no value and if allowed to expire will be worthless.
- (ii) The seller of a Call who does not own the underlying interest is subject to a risk of loss should the price of the underlying interest increase. If the Call is exercised and the seller is required to purchase the underlying interest at a market price above the exercise price in order to make delivery, he will suffer a loss.
- (iii) The seller of a Put who does not have a corresponding short position (that is an obligation to deliver what he does not own) in the underlying interest will suffer a loss if the price of the underlying interest decreases below the exercise price, plus transaction costs minus the premium received. Under such circumstances, the seller of the Put will be required to purchase the underlying interest at a price above the market price, with the result that any immediate sale will give rise to a loss.
- (iv) The seller of a Call who owns the underlying interest is subject to the full risk of his investment position should the market price of the underlying interest decline during the life of the Call, or by the specified date for exercise, as the case may be, but will not share in any gain above the exercise price.
- (v) The seller of a Put who has a corresponding short position in the underlying interest is subject to the full risk of his investment position should the market price of the underlying interest rise during the life of the Put, or by the specified date for exercise, as the case may be, but will not share in any gain resulting from a decrease in price below the exercise price.
- (vi) Transactions for certain Options may be carried out in a foreign currency. Accordingly, purchasers and sellers of these Options using Canadian dollars will be exposed to risks from fluctuations in the foreign exchange market as well as to risks from fluctuations in the price of the underlying interest.
- (vii) There can be no assurance that a liquid market will exist for a particular Option to permit an offsetting transaction. For example, there may be insufficient trading interest in the particular Option; or trading halts, suspensions or other restrictions may be imposed on the Option or the underlying interest; or some event may interrupt normal market operations; or a recognized market could for regulatory or

other reasons decide or be compelled to discontinue or restrict trading in the Option. In such circumstances the purchaser of the Option would only have the alternative of exercising his Option in order to realize any profit, and the seller would be unable to terminate his obligation until the Option expired or until he performed his obligation upon being assigned an exercise notice.

- (viii) The seller of an American style Option has no control over when he might be assigned an exercise notice. He should assume that an exercise notice will be assigned to him in circumstances where the seller may incur a loss.
- (ix) In unforeseen circumstances there may be a shortage of underlying interests available for delivery upon exercise of actual delivery Options, which could increase the cost of or make impossible the acquisition of the underlying interests and cause the clearing corporation to impose special exercise settlement procedures.
- (x) In addition to the risks described above which apply generally to the buying and selling of Options, there are timing risks unique to Options that are settled by the payment of cash.

The exercise of Options settled in cash results in a cash payment from the seller to the purchaser based on the difference between the exercise price of the Option and the settlement value. The settlement value is based on the value of the underlying interest at a specified time determined by the rules of the recognized market. This specified time could vary with the Option. For example, the specified time could be the time for establishing the closing value of the underlying interest on the day of exercise or in the case of some Options based on a stock index the time for establishing the value of the underlying interest which is based on the opening prices of constituent stocks on the day following the last day of trading. Options for which the settlement value is based on opening prices may not, unless the applicable recognized market announces a rule change to the contrary, trade on that day.

The settlement value for Options, futures contracts and futures options may not be calculated in the same manner even though each may be based on the same underlying interest.

Where the settlement value of a cash delivery Option is determined after the exercise period, the purchaser who exercises such Option will suffer from any unfavourable change in the value of the underlying interest from the time of his decision to exercise to the time settlement value is determined. With actual delivery Options, this risk can be covered by a complementary transaction in the actual market for the underlying interest.

The seller of a cash delivery Option is not informed that he has been assigned an exercise notice until the business day following exercise, at the earliest, and the seller will suffer from any unfavourable change in the value of the underlying interest from the time of determination of the settlement value to the time he learns that he has been assigned. Unlike the seller of an actual delivery Option, the seller of a cash delivery Option cannot satisfy his assignment obligations by delivery of the lower valued underlying interest, but must pay cash in an amount determined by the settlement value.

The type of risk discussed above makes spreads and other complex option strategies involving cash delivery Options substantially more risky than similar strategies involving actual delivery Options.

Tax Consequences

The income tax consequences of trading in Options are dependent upon the nature of the business activities of the investor and the transaction in question. Investors are urged to consult their own professional advisers to determine the consequences applicable to their particular circumstances.

Additional Information

Before buying or selling an Option an investor should discuss with his broker:

- His investment needs and objectives
- The risks he is prepared to take
- The specifications of Options he may wish to trade
- Commission rates
- Margin requirements
- Any other matter of possible concern

Specifications for each Option are available on request from your broker and from the recognized market on which the Option is traded. Should there be any difference in interpretation between this document and the specifications for a given Option, the specifications shall prevail.

RULE 91-502

APPENDIX B

RISK DISCLOSURE STATEMENT

Risk Disclosure Statement for Futures and Options

This brief statement does not disclose all of the risks and other significant aspects of trading in futures and options. In light of the risks, you should undertake such transactions only if you understand the nature of the contracts (and contractual relationships) into which you are entering and the extent of your exposure to risk. Trading in futures and options is not suitable for many members of the public. You should carefully consider whether trading is appropriate for you in light of your experience, objectives, financial resources and other relevant circumstances.

Futures

1. Effect of "Leverage" or "Gearing"

Transactions in futures carry a high degree of risk. The amount of initial margin is small relative to the value of the futures contract so that transactions are "leveraged" or "geared". A relatively small market movement will have a proportionately larger impact on the funds you have deposited or will have to deposit: this may work against you as well as for you. You may sustain a total loss of initial margin funds and any additional funds deposited with the firm to maintain your position. If the market moves against your position or margin levels are increased, you may be called upon to pay substantial additional funds on short notice to maintain your position. If you fail to comply with a request for additional funds within the time prescribed, your position may be liquidated at a loss and you will be liable for any resulting deficit.

2. Risk-reducing Orders or Strategies.

The placing of certain orders (e.g. "stop-loss" order, where permitted under local law, or "stop-limit" orders) which are intended to limit losses to certain amounts may not be effective because market conditions may make it impossible to execute such orders. Strategies using combinations of positions, such as "spread" and "straddle" positions may be as risky as taking simple "long" or "short" positions.

Options

3. Variable Degree of Risk

Transactions in options carry a high degree of risk. Purchasers and sellers of options should familiarize themselves with the type of option (i.e. put or call) which they contemplate trading and the associated risks. You should calculate the extent to which the value of the options must increase for your position to become profitable, taking into account the premium and all transaction costs.

The purchaser of options may offset or exercise the options or allow the options to expire. The exercise of an option results either in a cash settlement or in the purchaser acquiring or delivering the underlying interest. If the option is on a future, the purchaser will acquire a futures position with associated liabilities for margin (see the section on Futures above). If the purchased options expire worthless, you will suffer a total loss of your investment which will consist of the option premium plus transaction costs. If you are contemplating purchasing deep-out-of-the-money options, you should be aware that the chance of such options becoming profitable ordinarily is remote.

Selling ("writing" or "granting") an option generally entails considerably greater risk than purchasing options. Although the premium received by the seller is fixed, the seller may sustain a loss well in excess of that amount. The seller will be liable for additional margin to maintain the position if the market moves unfavourably. The seller will also be exposed to the risk of the purchaser exercising the option and the seller will be obligated to either settle the option in cash or to deliver or deliver the underlying interest. If the option is on a future, the seller will acquire a position in a future with associated liabilities for margin (see the section on Futures above). If the option is "covered" by the seller holding a corresponding position in the underlying interest or a future or another option, the risk may be reduced. If the option is not covered, the risk of loss can be unlimited.

Certain exchanges in some jurisdictions permit deferred payment of the option premium, exposing the purchaser to liability for margin payments not exceeding the amount of the premium. The purchaser is still subject to the risk of losing the premium and transaction costs. When the option is exercised or expires, the purchaser is responsible for any unpaid premium outstanding at that time.

Additional Risks Common to Futures and Options

4. Terms and Conditions of Contracts

You should ask the firm with which you deal about the terms and conditions of the specific futures or options which you are trading and associated obligations (e.g., the circumstances under which you may become obligated to make or take delivery of the underlying interest of a futures contract and, in respect of options, expiration dates and restrictions on the time for exercise). Under certain circumstances the specifications of outstanding contracts (including the exercise price of an option) may be modified by the exchange or clearing house to reflect changes in the underlying interest.

5. Suspension or Restriction of Trading and Pricing Relationships

Market conditions (e.g. illiquidity) and/or the operation of the rules of certain markets (e.g. the suspension of trading in any contract or contract month because of price limits or "circuit breakers") may increase the risk of loss by making it difficult or impossible to effect transactions or liquidate/offset positions. If you have sold options, this may increase the risk of loss.

Further, normal pricing relationships between the underlying interest and the future, and the underlying interest and the option may not exist. This can occur when, for example, the futures contract underlying the option is subject to price limits while the option is not. The absence of an underlying reference price may make it difficult to judge "fair" value.

6. Deposited Cash and Property

You should familiarize yourself with the protections accorded money or other property you deposit for domestic and foreign transactions, particularly in the event of a firm insolvency or bankruptcy. The extent to which you may recover your money or property may be governed by specific legislation or local rules. In some jurisdictions, property which had been specifically identifiable as your own will be prorated in the same manner as cash for purposes of distribution in the event of a shortfall.

7. Commission and Other Charges

Before you begin to trade, you should obtain a clear explanation of all commission, fees and other charges for which you will be liable. These charges will affect your net profit (if any) or increase your loss.

8. Transactions in Other Jurisdictions

Transactions on markets in other jurisdictions, including markets formally linked to a domestic market, may expose you to additional risk. Such markets may be subject to regulation which may offer different or diminished investor protection. Before you trade you should enquire about any rules relevant to your particular transactions. Your local regulatory authority will be unable to compel the enforcement of the rules of regulatory authorities or markets in other jurisdictions where your transactions have been effected. You should ask the firm with which you deal for details about the types of redress available in both your home jurisdiction and other relevant jurisdictions before you start to trade.

9. Currency Risks

The profit or loss in transactions in foreign currency-denominated contracts (whether they are traded in your own or another jurisdiction) will be affected by fluctuations in currency rates where there is a need to convert from the currency denomination of the contract to another currency.

10. Trading Facilities

Most open-outcry and electronic trading facilities are supported by computer-based component systems for the order-routing, execution, matching, registration or clearing of trades. As with all facilities and systems, they are vulnerable to temporary disruption or failure. Your ability to recover certain losses may be subject to limits on liability imposed by the system provider, the market, the clearing house and/or member firms. Such limits may vary; you should ask the firm with which you deal for details in this respect.

11. Electronic Trading

Trading on an electronic trading system may differ not only from trading in an open-outcry market but also from trading on other electronic trading systems. If you undertake transactions on an electronic trading system, you will be exposed to risks associated with the system including the failure of hardware and software. The result of any system failure may be that your order is either not executed according to your instructions or is not executed at all. Your ability to recover certain losses which are particularly attributable to trading on a market using an electronic trading system may be limited to less than the amount of your total loss.

12. Off-exchange Transactions

In some jurisdictions, and only then in restricted circumstances, firms are permitted to effect off-exchange transactions. The firm with which you deal may be acting as your counterparty to the transaction. It may be difficult or impossible to liquidate an existing position, to assess the value, to determine a fair price or to assess the exposure to risk. For these reasons, these transactions may involve increased risks.

Off-exchange transactions may be less regulated or subject to a separate regulatory regime. Before you undertake such transactions, you should familiarize yourself with applicable rules.

Priorités de la Commission des assurances de l'Ontario - Appel de propositions

Aux termes de la *Loi de 1996 sur la stabilité des taux d'assurance-automobile*, la Commission des assurances de l'Ontario (CAO) est tenue de présenter au ministre des Finances et de publier par la suite dans *La Gazette de l'Ontario* un exposé de ses priorités pour le prochain exercice financier relativement à l'administration de la *Loi sur les assurances*, de la *Loi sur l'assurance-automobile obligatoire*, de la *Loi sur l'indemnisation des victimes d'accidents de véhicules automobiles* et de la *Loi sur les courtiers d'assurances inscrits*. Cet exposé est accompagné d'un résumé des motifs de l'adoption de ces priorités.

La CAO présentera au ministre des Finances en juin 1997 un exposé de ses priorités pour l'exercice financier 1998-1999, qui sera publié peu de temps après dans *La Gazette de l'Ontario*.

En vertu des dispositions de la *Loi de 1996 sur la stabilité des taux d'assurance-automobile* et dans un souci de transparence dans le processus de réglementation, la CAO invite les parties concernées à présenter des propositions écrites sur les questions qui, selon elles, devraient faire partie des priorités de la Commission.

Nous vous prions de bien vouloir présenter vos propositions au plus tard le 23 mai 1997 à l'adresse suivante :

CLHIA GUIDELINES ON INDIVIDUAL VARIABLE INSURANCE CONTRACTS RELATING TO SEGREGATED FUNDS

APPROVED BY
THE CANADIAN COUNCIL OF
INSURANCE REGULATORS AND
CLHIA'S BOARD OF DIRECTORS

MARCH 4, 1997

July 1, 1997

CLHIA GUIDELINES ON INDIVIDUAL VARIABLE INSURANCE CONTRACTS RELATING TO SEGREGATED FUNDS

Foreword

The disclosure guidelines for Individual Variable Insurance Contracts ("IVICs") established by the Canadian Council of Insurance Regulators ("CCIR") and the Canadian Life and Health Insurance Association Inc. ("CLHIA"), set out in CLHIA Guidelines Nos. 23, 24, 86, 87, 88 and The Canadian Code of Advertising Standards (the "Former Guidelines"), have been revised and consolidated, with the applicable legislation, to produce these CLHIA Guidelines on Individual Variable Insurance Contracts relating to Segregated Funds.

With the exception of Part XIII, Audit and Accounting Requirements and the requirement for financial statements on an audited basis under Part E, Financial Disclosure, of Form 1, these Guidelines shall apply as of July 1, 1997, to all IVICs issued on or before that date. These Guidelines come into full force and effect on January 1, 1998. However, CLHIA urges all insurers to note that Part XI, Partitioning of Assets held in Segregated Funds, and Part XII, Merger of Segregated Funds, have yet to receive the benefit of the proposed amendments to the Income Tax Act that would prevent unwanted dispositions occurring in the hands of contractholders.

These Guidelines do not apply to group VICs relating to segregated funds.

Matters respecting the training, competence and skill of life Insurance agents are not within the scope of these Guidelines.

PART I - APPLICATION:

1.1 General:

These Guidelines apply to individual variable insurance contracts that meet the definition provided in Section 2.1 of these Guidelines and, with the exception of Part XIII, Audit and Accounting Requirements and Part E, Financial Disclosure, of Form 1, are effective July 1, 1997. From July 1, 1997, until the date the first audited financial statements are due, the financial statements required under Part E, of Form 1, need not be provided on an audited basis. These Guidelines are in full force and effect on January 1, 1998. The first audited financial statements required under Part E, of Form 1, are due four months after the insurer's fiscal year ending in 1998.

1.2 Non-Application of Guidelines:

Group variable insurance contracts relating to segregated funds are not subject to the compulsory application of these Guidelines.

In addition, these Guidelines do not apply in respect of individual variable insurance contracts that meet the definition provided in Section 2.1 of these Guidelines, but which are no longer offered for sale to the public on, and after, July 1, 1997, provided that the insurer has ceased

all sales of individual variable insurance contracts. In such an instance, the insurer shall, at a minimum, meet the requirements of the former CCIR and CLHIA Variable Insurance Contract Guidelines, set out in CLHIA Guidelines Nos. 23 and 24, in respect of all existing contracts. Where the insurer continues to sell individual variable insurance contracts generally, but has simply ceased to sell any particular type of its individual variable insurance contracts, the insurer must comply with these new Guidelines for all of its individual variable insurance contracts.

- (b) state that such individual variable insurance contracts can be redeemed only on specified dates and only on a specified number of days prior notice as provided in the contracts and accordingly are not a suitable investment for contractholders who require ready convertibility of their funds into cash;
- (c) state that redemption of individual variable insurance contracts may be suspended during any period that the segregated fund does not have sufficient cash or readily marketable securities to meet requests for redemptions;
- (d) state that the net asset value at which individual variable insurance contracts are issued and redeemed is based upon appraisals of the real property; that for any given real property there is a range of market values; that an appraisal is an opinion only and that there can be no assurance that the appraised value will be equal to the price for which the property is ultimately sold; and
- (e) state that the net asset value per individual variable insurance contract for the purchase or redemption of individual variable insurance contracts may differ from the amounts that would be paid to contractholders on dissolution of the fund.

5.4 Annual Statement to Contractholder:

The insurer shall furnish to the contractholder, within four months of each successive fiscal year end of the insurer, a statement showing the following:

- (a) the information required by Form 1, Item 11;
- (b) the management expense ratio with a brief explanation thereof;
- (c) the value of the benefits under the contractholder's individual variable insurance contract related to the market value of the segregated fund at the end of the period covered by the statement;
- (d) the amount, if any, allocated under the contractholder's individual variable insurance contract to a segregated fund during the period covered by the statement;
- (e) the overall rate of return, calculated on a net basis, for the segregated fund for the last 1,3,5 and 10 year periods, if applicable; and
- (f) the audited financial statements for the fiscal year of the insurer just ended.

PART VI - DELIVERY OF DOCUMENTS TO PROSPECTIVE CONTRACTHOLDER:

6.1 Delivery of Information Folder:

Before an application for an individual variable insurance contract is signed by a prospective contractholder, a true copy of the corresponding information folder then on file with the Insurance Regulator of the particular jurisdiction, pursuant to Part IV of these Guidelines, shall be delivered to the prospective contractholder.

Where a contract is not an individual variable insurance contract at issue but is subsequently amended to become an individual variable insurance contract upon application by the

contractholder for such amendment, a true copy of the corresponding information folder then on file, pursuant to Part IV of these Guidelines, shall be delivered to the contractholder prior to the effective date of such amendment, if not previously delivered.

6.2 Acknowledgement of Receipt of Information Folder:

The insurer shall, at the time of delivery, obtain from any person to whom an information folder is delivered in compliance with Section 6.1 of these Guidelines a signed statement in writing acknowledging that he or she has received a copy of such information folder.

6.3 Provision of Summary Fact Statement:

A summary fact statement in respect of each segregated fund must be given to the prospective contractholder at the time of delivery of the information folder. The summary fact statement may either be a separate document or appear as part of the information folder.

6.4 Requirements for Other Written Documents:

Where a prospective contractholder is furnished with any other type of written document that is a direct inducement to purchase a particular individual variable insurance contract such document shall:

- (a) be consistent with the relevant provisions of that particular contract and Part VIII, Advertising, of these Guidelines; and
- (b) contain the following warning set out in bold, capitalized print:

'SUBJECT TO ANY APPLICABLE DEATH AND MATURITY GUARANTEE, ANY PART OF THE PREMIUM OR OTHER AMOUNT THAT IS ALLOCATED TO A SEGREGATED FUND IS INVESTED AT THE RISK OF THE CONTRACTHOLDER AND MAY INCREASE OR DECREASE IN VALUE ACCORDING TO FLUCTUATIONS IN THE MARKET VALUE OF THE ASSETS IN THE SEGREGATED FUND'.

PART VII - CORPORATE GOVERNANCE OF SEGREGATED FUNDS:

7.1 An insurer that establishes and maintains a segregated fund as a fund for investment under individual variable insurance contracts shall:

- (a) prepare the segregated fund's financial statements, described in Part XIII of these Guidelines, annually;
- (b) appoint an auditor to make such examination as the auditor considers necessary to enable the auditor to report on the segregated fund's financial statements;
- (c) monitor the quality of internal controls in place for the segregated fund;
- (d) ensure that the segregated fund has an investment policy in accordance with Part X of these Guidelines, and monitor the segregated fund for compliance with that policy;
- (e) review any partitions or mergers of segregated funds as described in Part XI or Part XII of these Guidelines; and
- (f) make available explanatory materials to life agents.

PART VIII - ADVERTISING:

8.1 Advertising:

No insurer or agent shall give any undertaking or make any promises as to the future value of a segregated fund, of any

interest in a segregated fund, or of any benefit supported by a segregated fund except with respect to a guarantee for the return of all or portion of the premiums on death or at maturity as provided for under the individual variable insurance contract.

8.2 Unfair and Deceptive Acts and Practices:

No insurer may engage in any unfair or deceptive acts or practices including:

- (a) the issuance of any illustration, circular, memorandum or statement that misrepresents, or omits material information and thus misrepresents, terms, benefits or advantages of any individual variable insurance contract issued or to be issued;
- (b) the giving of any false or misleading statement as to the terms, benefits or advantages of any individual variable insurance contract issued or to be issued;
- (c) the making of any incomplete comparison of an individual variable insurance contract with that of any other insurer for the purpose of inducing, or intending to induce, a contractholder to forfeit or surrender his or her contract;
- (d) the making of any incomplete comparison of an individual variable insurance contract with other investment vehicles, that is so incomplete that it misrepresents the individual variable insurance contract's terms, benefits or advantages;
- (e) the making of any advertisement which, directly or indirectly, unfairly criticizes the contracts, services or methods of its competitors; or
- (f) the doing of any other activity or the failure to do an act that may be deemed to be an unfair or deceptive act or practice by any applicable legislation of a particular jurisdiction.

8.3 Words or Sentences Used in Advertisements:

The words or sentences regarding life insurance coverage under an individual variable insurance contract must be explained in the advertisement. Expressions commonly used in individual variable insurance contracts must also be used in advertisements respecting such contracts.

8.4 Clarity of Written Advertisements:

All information in written advertisements must be clearly presented and correspond with the statements relating thereto or be grouped under appropriate headings so that the advertisement is factual and the text of the advertisement is comprehensible and coherent.

8.5 If Advertisement Lists Advantages, Must Also List Limitations:

When an advertisement mentions any advantage, such as the nature of the coverage, the benefits payable or any other advantage attached to the individual variable insurance contract or to one of its provisions, it must also fairly disclose, in close proximity, and in the same manner, any limitations, exceptions or reductions which affect the nature of the coverage.

8.6 Advertisements that State Term or Age as a Condition:

An advertisement respecting an individual variable insurance contract, whether purchased as a registered or non-registered policy, shall provide the prospective contractholder with adequate information respecting the issue date of the contract, particularly as it relates to the prospective contractholder's age.

An advertisement for a Registered Retirement Savings Plan ("RRSP") which states a term or age as a condition of the validity of the contract shall indicate that it must convert to an annuity or a Registered Retirement Income Fund ("RRIF")

before the end of the year in which the insured attains the age limit specified in the applicable income tax legislation.

8.7 Advertisement Referring to Renewal, Cancellation or Termination:

An advertisement which refers to renewal, cancellation or termination of an individual variable insurance contract shall describe the provisions of the contract which are related thereto.

8.8 Advertisement Not to be Misleading:

No advertisement shall:

- (a) contain false, misleading, unwarranted or exaggerated statements, either directly or by implication;
- (b) make misleading or inaccurate presentations;
- (c) conflict with any information contained in an information folder or in a sales communication;
- (d) contain false or misleading testimonials;
- (e) disparage another company's product;
- (f) deliberately imitate the text, slogans or illustrations of other advertisers in order to mislead the consumer;
- (g) change or distort the true meaning of statements by actuarial, technical, medical or professional authorities;
- (h) use technical or industry terminology without consideration of the level of comprehension of the public;
- (i) contain statements that appear to have an actuarial or technical basis when, in fact they do not;
- (j) offer guarantees of any kind unless the conditions and limits are fully explained;
- (k) include statements likely to mislead the public to believe that the benefits may be greater than those provided for in the contract;
- (l) include statements likely to mislead as to the amounts of benefits paid, the number of persons insured or other statistical information respecting an insurer or an insurance contract; or
- (m) use statistics without clearly identifying their source.

8.9 Testimonials:

Testimonials used in an advertisement must be of a general nature, be authentic and express the current opinion of the author of the testimony at that time. Where a testimonial or a recommendation is paid for directly or indirectly by the insurer, or someone on its behalf, the advertisement shall so state. When using a testimonial, the insurer shall be deemed to assume as its own all of the statements contained therein.

8.10 Advertisement to Establish Real Identity:

An advertisement shall establish the real identity of the insurer and must not mention any device which is misleading in relation to a trade name, service mark, slogan or symbol. It shall also contain the date of its first publication.

8.11 Insurer's Corporate Name:

The insurer's corporate name shall be printed in full in an advertisement and must be prominently shown on any accompanying application for an individual variable insurance contract.

8.12 Text Requirements and Warnings:

Disclaimers or asterisked information in a written advertisement should be so located and large enough to be clearly visible. All warnings and disclaimers shall be at least 8-point type if contained in a written sales communication, or clearly displayed and audible or visible for a reasonable period of time if broadcast or delivered by way of an electronic medium.

All other text in a written sales communication shall be at least 8-point type.

All sales communications, whether written, or delivered by way of electronic media, shall include the prescribed warning (with appropriate modifications by an insurer selling a life insurance contract or an immediate annuity contract that provides for investment in a segregated fund), as set out Section 5.2(d) except in circumstances where the sales communication does not contain any performance data and the warning would constitute more than 50% of the sales communication.

8.13 Provisions for Registered and Non-Registered Individual Variable Insurance Contracts:

An insurer shall:

- (a) indicate in the information folder in respect of registered, individual variable insurance contracts that such contracts are one of a number of different vehicles for the accumulation of retirement income;
- (b) whenever tax saving, as opposed to tax sheltering or deferral, is described as an advantage of a registered, individual variable insurance contract, indicate that ultimately all benefits received shall be added to income for tax purposes;
- (c) where past performance is advertised, comply with Section 8.1 and include the prescribed warning set out in Section 5.2(d), and indicate:
 - (i) where an illustration of growth rates of a segregated fund is based upon the past performance of a segregated fund itself or of similar funds or of one or more indices, it shall also be made clear that such past results should not be construed as being indicative of the future performance of the segregated fund;
 - (ii) past performance must be reported, at a minimum, on a 1, 3, 5 and 10 year basis. Where a segregated fund has not been in existence for 10 years, then its past performance should be reported, at minimum, on a 1, 3 and 5 year basis, or as is applicable; and
 - (iii) performance data which is provided must, at a minimum, be for the 1, 3, 5, and 10 year periods, or as is applicable, ending on a calendar month not more than 3 months prior to the date of first publication;
- (d) where rates of return are advertised with respect to investments over a stipulated period of time, indicate also any qualification which would prevent redemptions prior to expiry of such period;
- (e) where withdrawal privileges for investments in a segregated fund are advertised, indicate any qualification preventing withdrawal of the redemption request;
- (f) where fees or charges are referred to, include a statement listing all fees and charges which are applicable;
- (g) where costs or commissions on sales of individual variable insurance contracts are referred to as applying or not applying, include a statement listing all fees and charges applicable to those sales. Where a withdrawal charge is applicable, include a statement listing the charge;

(h) where describing an individual variable insurance contract as suitable for registration (e.g. as an RRSP), include the following statements:

- (i) if applicable, that certain of its regular contractual benefits may be required to be modified under the terms of an endorsement upon registration;
- (ii) that registered life insurance contracts may be more suitable as a means of long duration investment rather than short duration; and
- (iii) that the prospective contractholder discuss fully all aspects of registration with the insurer or agent before the purchase of any registered, individual variable insurance contract; and

the insurer shall not refer to immediate tax saving as the primary reason for purchasing registered, individual variable insurance contracts, such as RRSPs, nor shall the insurer emphasize deregistration soon after the contract is issued.

8.14 Performance Comparisons for Segregated Funds:

A sales communication or advertisement that compares the performance of one or more segregated funds to a consumer price index, any stock, bond or other index, average, or any guaranteed investment certificate or other certificate or deposit, real estate or any other investment of any kind or nature, including another segregated fund, shall:

- (a) include all facts that, if disclosed, would likely materially alter conclusions reasonably drawn or implied by the comparison;
- (b) present data for each subject of comparison for the same period(s); and
- (c) where the performance of an index or average is compared, if appropriate in view of the nature of the comparison, describe the index or average, point out if there are material differences between the composition of or calculation of the performance of the index or average and the investment portfolio of the segregated fund and state any other factors to make the comparison fair and not misleading.

8.15 Illustrations:

An illustration presenting any prospective accumulation of the value of contributions to an individual variable insurance contract shall include a statement that the accumulation may be used at maturity to provide an annuity, or if it is a life insurance product, shall include a statement that the accumulation may provide a death benefit, and, in either case, shall also state the rate of growth assumed in calculating the illustration and shall also state whether or not any guarantee applies in whole or in part, and the nature of such guarantee.

The contents of an illustration must meet the minimum requirements set forth in the CLHIA's Guideline for Life Insurance Illustrations, as may be amended from time to time.

8.16 Standard Performance Measurement Presentation:

It is recommended that the insurer adopt a system of standard performance measurement presentation for the reporting of data, such as those contained in the Association for Investment Management and Research's ("AIMR") Standards of Practice Handbook, as amended from time to time.

PART IX - RETAIL REMUNERATION:

9.1 Insurer Shall Obtain Written Agreement from Agent:

An insurer offering individual variable insurance contracts for sale through agents or brokers shall have a written agreement

(the "agent's agreement") with each agent or corporate agency authorized to sell individual variable insurance contracts.

9.2 No Unauthorized Advertisements:

No advertisement shall be published and no pamphlet or booklet concerning or referring to an insurer's individual variable insurance contracts shall be issued, displayed or circulated by the agent unless prior authorization is obtained in writing from the insurer. The insurer remains bound by the rules pertaining to Advertising as set out in Part VIII of these Guidelines.

9.3 "Trailer" or Service Fees:

Where an agent is entitled to receive "trailer" or service fees from the insurer or the manager of the segregated fund, and these fees are charged to the assets of the segregated fund, this fact shall be disclosed to prospective contractholders in the information folder, along with an explanation of the services that they can expect to receive as a result.

The insurer shall provide the particulars of such fees in the information folder, in accordance with Form 1, Item 12, if the fees are charged to the assets of the segregated fund.

9.4 Management Expense Ratio:

- (1) The audited financial statements for a segregated fund shall set out in tabular form the management expense ratio for each fee option under an individual variable insurance contract for each of the last five completed financial years of the segregated fund, together with a brief description of the method of calculating the management expense ratio.
- (2) Where the basis of the calculation of fees and charges and other expenses that are charged to a segregated fund are changed or proposed to be changed and where such change would have a material effect on the management expense ratio for the last completed financial year of the segregated fund if such change had been in effect for such year, the information folder shall disclose the effect of such change.
- (3) Where any financial period referred to in Section 9.4(1) is less than 12 months, the management expense ratio shall be shown on an annualized basis with reference to the period covered and to the fact that the management expense ratio for the period has been annualized.
- (4) The management expense ratio of a segregated fund applicable to a particular fee option under an individual variable insurance contract for any financial year shall be obtained by dividing (i) the aggregate of all fees and charges and other expenses paid or payable by the segregated fund during or in respect of the financial year in question which relate to that particular fee option, by (ii) the amount of the average net asset value of the segregated fund attributable to the particular fee option for the financial year in question and multiplying the quotient by 100. For the purpose of making this calculation:
 - (a) the expression "the average net asset value of the segregated fund attributable to the particular fee option for a financial year" means the result obtained by:
 - (i) adding together the amounts determined to be the net asset value of the segregated fund attributable to the particular fee option as at the close of business of the segregated fund on each day during the financial year in question on which the net asset value of the segregated fund has been determined in the manner from time to time as described in Item 2 of Form 1;
 - (ii) dividing the amount resulting from the addition provided for in clause (i) by the number of days during the financial year in question on which the net asset value has been determined;

- (b) for the purposes of Section 9.4, the expression "all fees and charges and other expenses" means all fees and charges and expenses paid or payable by the segregated fund with the exception of commissions and brokerage fees on the purchase and sale of portfolio securities, interest charges (if any) and taxes of all kinds to which the segregated fund is subject.
- (5) The audited financial statements of the segregated fund shall set out in appropriate detail the amounts of all fees and charges and other expenses, if any, which have been charged to the segregated fund during the period covered by the financial statements.

PART X - INVESTMENTS:

10.1 Investment Policy of the Segregated Fund:

- (1) The insurer shall include a brief statement in the information folder of the investment policy of the segregated fund addressing each of the following matters:
- (a) the objectives of the segregated fund including the investment style or parameters of the investment portfolio;
 - (b) use of the segregated fund's earnings; and
 - (c) disclosure, at a minimum, of the following principal risks, if applicable to the segregated fund: interest rate risk; foreign currency risk; credit risk; sovereign risk; market risk; special equities risk; real estate risk; and derivative risk. State whether or not the segregated fund uses leverage, and if so, the manner by which it controls the risk related to this leverage (e.g., use of secondary funds, diversification, etc.).
- (2) The insurer shall abide by all of the following limits:
- (a) the sum of the segregated fund's exposures to any one corporate entity may not exceed 10% of the value of the fund. Exposure may take the form of securities issued by the entity, loans to the entity recorded on the face of the financial statements or credit exposure (expressed as "credit equivalent amount") to the entity;
 - (b) the percentage of securities of any one corporate issue that may be acquired is limited to 10% of each class of securities of any one corporate issuer except for any corporate issue of, or a government security guaranteed by any government authority in Canada;
 - (c) as a matter of investment policy, at the time of making an investment, an insurer shall not seek to invest in the securities of a company in order to exercise control or management of it. However, should an insurer ultimately gain control or management of a company due to market forces, such as through realization procedures, such a circumstance is not prohibited;
 - (d) where more than 10% of the market value of the segregated fund is or will be invested in mortgages, state the method used to determine the market value of the mortgages. This method must provide for the categorization of mortgages based on risk, and within each category, mortgages are to be valued at a principal amount based on the following: the prevailing rate of return; the duration; the relationship between the current interest rates and the interest rate of the mortgage for that category; and, the statutory requirements relating to wrap-around mortgages, where applicable; and
 - (e) where more than 10% of the market value of the fund is or will be invested in real estate for the production of income, state the method used to determine the market value of the real estate. This method must include the following: the initial market value shall be equal to the cost of acquiring the real estate including professional

fees and other costs; each parcel of real estate must be appraised by an independent qualified appraiser at least once every 3 years; each parcel of real estate must be appraised at least once a year by a qualified appraiser and may include an updating of previous appraisals; for dates where no appraisal is available, the insurer must provide a monthly market value; all appraisals in any one year must be scheduled at regular intervals over the year; where a material change in the condition of any real estate held in the segregated fund occurs that could materially affect the fund's market value, the insurer must immediately arrange for an appraisal by an independent qualified appraiser of such real estate and adjust the valuation of it at the next monthly valuation date after the appraisal is made.

10.2 Derivatives:

(1) Use of Derivatives Instruments in an Unlevered Portfolio:

Where the investment policy of a segregated fund states that leverage will not be used, the notional amount of derivatives used by the segregated fund shall not exceed 100% of the value of the net assets of the segregated fund, subject to a short-term 2% variation depending on movements in the foreign exchange value of the currency in which the units of the fund are offered. In those instances, where derivatives add to the market exposure of the segregated fund (e.g., through a long position in a futures contract, swaps, call financial options, or a short position in a put financial option), the segregated fund will hold cash which together with any margin on account are equal to the notional value of any derivative instrument held. Where the derivatives provide negative market exposures to the segregated fund (e.g., a short position in a futures contract, swap, call financial option or a long position in a put financial option), the segregated fund must hold a position in the underlying instrument in the portfolio or an equivalent long position equal to the notional value of the derivatives instrument held.

Derivatives may be used in hedging positions recorded on the face of the financial statements and positions disclosed in the notes to the financial statements, to generate income (by sale of covered calls) or for replication of an index.

For segregated funds using derivatives to change the asset exposure and currency exposure, the notional value of the derivatives relating to assets shall be measured independently of those relating to currency so that the currency positions do not independently exceed the net assets of the segregated fund.

(2) Use of Derivatives Instruments in a Levered Portfolio:

Where the investment policy of a segregated fund specifically states that leverage will be or may be used, derivatives may be used to create this leverage if all of the following conditions are met:

- (a) no more than 20% of the net assets of the segregated funds will be invested in any particular trading strategy or approach using leverage;
- (b) the segregated fund will isolate each levered trading strategy or approach in limited liability secondary funds in order to protect the segregated fund from losing more than 20% of the net assets of the segregated fund on that strategy;
- (c) on a quarterly basis, the management of the segregated fund will make such risk management studies as it deems prudent to ensure that each of the levered strategies anticipated for a segregated fund is relatively independent of other such strategies (e.g., low correlation, etc.); and

- (d) where leverage is being used, the contractholder shall be informed in the information folder of the historical and anticipated risk level of the segregated fund with such measures as standard deviation.

(3) Over-the-Counter Derivatives Instruments:

Where over-the-counter derivatives instruments are used, the following conditions must be met:

- (a) a calculation of the counterparty exposure amount must be made at least monthly for each counterparty and such exposure to any counterparty taken together with any exposures recorded on the face of the financial statements must not exceed 10% of the net assets of the segregated fund for any individual counterparty; and
- (b) fund managers are prohibited from making derivative contracts on behalf of the segregated fund with the sponsoring insurer or any entity controlled by, or in control of, the sponsoring insurer, or in the control of an entity in control of the sponsoring insurer.

(4) Valuation of Derivatives:

Positions in derivative instruments shall be valued at the current market value thereof.

Where a covered clearing corporation financial option, financial option on futures or over-the-counter financial option is written, the premium received by the segregated fund shall be reflected as a deferred credit that shall be valued at an amount equal to the current market value of the clearing corporation financial option, financial option on futures or over-the-counter financial option that would have the effect of closing the position. Any difference resulting from revaluation shall be treated as an unrealized gain or loss on investment. The deferred debit or credit shall be included in determining the net asset value of the segregated fund. The securities, if any, which are the subject of a written clearing corporation financial option or over-the-counter financial option shall be valued at their current market value.

The value of a futures contract, or a forward contract, shall be the gain or loss with respect thereto that would be realized if, on the valuation date, the position in the futures contract, or the forward contract, as the case may be, were to be closed out unless "daily limits" are in effect, in which case fair value shall be based on the current market value of the underlying asset.

Margin paid or deposited in respect of futures contracts and forward contracts shall be reflected as an account receivable and margin consisting of assets other than cash shall be noted as held as margin.

In accordance with Section 13.2(4)(e), the value of written clearing corporation financial options, positions in future contracts and positions in forward contracts determined in accordance with this paragraph shall be disclosed in the statement of investment portfolio of the segregated fund.

10.3 Investments in Another Fund:

Notwithstanding Section 10.1(2), an investment in a secondary fund is permitted by a segregated fund (the "principal fund"), provided that the following conditions are met:

- (a) adequate disclosure of this practice is made in the information folder;
- (b) the principal fund establishes a unit value;
- (c) there is disclosure in the information folder of any management fees or sales charges by the principal and the

secondary fund. These fees or charges are to be included in the calculation of the management expense ratio of the principal fund. Where a principal fund invests in a secondary fund of the same insurer or of an entity controlled by, or in control of, the insurer or in the control of an entity in control of the insurer, there shall be no duplication of management fees or sales charges;

- (d) where an investment in a secondary fund is greater than 20% of the assets of the principal fund, there is disclosure in the information folder of those assets held in the secondary fund if not otherwise disclosed in the audited financial statements of the principal fund; and
- (e) the investment policy of the principal fund continues to be followed.

10.4 Illiquid Investments:

Where in the case of any investment there is no marketplace where such investment may normally be purchased and sold and public quotations in common use in respect thereof are not available, such investment will be considered to be an illiquid investment notwithstanding the fact that any party has agreed to purchase the investment. Examples of illiquid investment include, but are not limited to: limited partnership interests that are not listed; non-publicly traded securities; and, over-the-counter financial options entered into for non-hedging purposes. However, over-the-counter financial options entered into for hedging purposes in accordance with Section 10.2(2) of these Guidelines are not deemed to be illiquid investments. In addition, limited liability vehicles or secondary funds used to protect against excessive loss where leverage is being used are not deemed to be illiquid investments, provided that the underlying securities are themselves not illiquid investments.

Subject to the specific provisions set out below respecting certain types of segregated funds, in general, a segregated fund shall not, without prior written notice to the applicable Insurance Regulators, invest more than 10% of its net assets (taken at market value at the time of the investment) in illiquid investments.

10.5 Real Estate:

- (1) Where a segregated fund invests in real estate, the investment policy of the segregated fund must outline the insurer's purchase and sale of real estate in respect of the fund over the last five years. In addition, the investment policy must state the following:
 - (a) that no investment can be made in real estate except for the production of income;
 - (b) that the segregated fund is not permitted to invest in raw or undeveloped land;
 - (c) an insurer shall not sell or transfer real estate investments from or to a segregated fund of the insurer, to or from another fund of the insurer at other than its fair value as determined by an independent qualified appraiser;
 - (d) that the segregated fund is not permitted to invest more than 10% of its assets in real estate, unless the segregated fund is a real estate fund;
 - (e) that the segregated fund is not permitted to invest in real estate until its net assets are equal to or greater than \$10,000,000;
 - (f) where more than 10% of the segregated fund's market value is invested or will be invested in real estate for the production of income, state the methods used to determine the market value of the real estate, consistent with the following:

- (i) the initial market value is the cost of acquiring the real estate including professional fees and other acquisition costs;
- (ii) an independent qualified appraiser must appraise each parcel of real estate at least once every three years;
- (iii) a qualified appraiser must appraise each parcel of real estate at least once a year and may include an updating of previous appraisals;
- (iv) the insurer must determine a monthly market value at dates for which an appraisal is not available based on the price the real estate would bring if sold on the open market after a reasonable time to a knowledgeable purchaser;
- (v) all appraisals in any year must be arranged so that the valuations of the market value of individual parcels of real estate are made at regular intervals over the year;
- (vi) the insurer shall ensure that the contents of appraisal reports and the valuation methodologies used in appraisal reports meet the minimum standards of the Appraisal Institute of Canada, which are contained in the Uniform Standards of Professional Appraisal Practice with the Canadian Supplement, and the Handbook for Appraisal Guidelines, as amended from time to time;
- (vii) in the event of a material change in the condition of any real estate held in the fund that may affect the market value of the segregated fund, the insurer must immediately arrange for the appraisal of it by an independent qualified appraiser, and adjust the valuation of the real estate at the next monthly valuation after the appraisal is made; and
- (g) where a segregated fund is invested in real estate over 30% of the net asset value of the fund, that there are minimum levels that must be met as a percentage or amount of the total net asset value of the segregated fund held in liquid assets, as follows:

Net asset Value of the Fund	Minimum amount to be Maintained in Liquid Assets
\$10,000,000 to \$20,000,000	10% of net asset value of the fund
\$20,000,000 to \$30,000,000	\$2,000,000 plus 9% of net asset value of the fund over \$20,000,000
\$30,000,000 to \$40,000,000	\$2,900,000 plus 8% of net asset value of the fund over \$30,000,000
\$40,000,000 to \$50,000,000	\$3,700,000 plus 7% of net asset value of the fund over \$40,000,000
\$50,000,000 or more...	\$4,400,000 plus 6% of net asset value of the fund over \$50,000,000.

- (2) A segregated fund may invest in a joint venture arrangement in respect of real estate only if:
 - (a) the fund's interest in the joint venture arrangement is not subject to any restriction on transfer other than a right of first refusal, if any, in favour of the joint venturers;

- (b) the fund has a right of first refusal to buy the interests of joint ventures; and
- (c) the joint venture arrangement provides an appropriate buy-sell mechanism to enable the fund to cause the joint venturers to purchase the fund's interest or to sell their interests to the fund.

- (3) A segregated fund shall not lease or sublease to any person any real estate, premises or space where that person and its affiliates would, after the contemplated lease or sublease, be leasing or subleasing real estate, premises or space having a fair market value net of encumbrances in excess of 20% of the net asset value of the fund.
- (4) A segregated fund shall not enter into any transaction involving the purchase of real estate or real estate improvements thereon and the leasing thereof back to the vendor where the fair market value net of encumbrances on the real estate being leased to the vendor together with all other real estate being leased by the fund to the vendor and its affiliates is in excess of 20% of the net asset value of the fund.
- (5) No units of a real estate segregated fund shall be issued under an individual variable insurance contract unless the premium relating thereto is fully paid for in cash. No individual variable insurance contract shall be issued, directly or indirectly, as consideration for real estate or services. No acquisition of real estate shall be made by a segregated fund on the condition or understanding that the vendor of the real estate subscribe for individual variable insurance contracts held in the segregated fund.
- (6) No investments can be made in any one parcel of real estate to an extent of more than 10% of the market value of the segregated fund's assets at the time of making the investments, except for the amount transferred by an insurer to establish a segregated fund, and no more than 25% of the transferred amount can be invested in any one parcel of real estate.
- (7) Unless a segregated fund has either reserved the right in its discretion to purchase real estate in its information folder or is a real estate fund, it must not participate in the purchase of real estate, other than real estate acquired from foreclosure of mortgages held by the segregated fund.
- (8) If on a redemption date a real estate segregated fund is unable to redeem all individual variable insurance contracts in respect of which redemption has been requested, redemptions shall be made "pro rata".

10.6 Mortgages:

- (1) Where a segregated fund invests in mortgages the investment policy of the segregated fund must state the following:
 - (a) that no investments can be made in any one mortgage to an extent of more than 5% of the market value of the segregated fund's assets at the time of making the investments, except for the amount transferred by an insurer to establish a segregated fund, and that no more than 25% of the transferred amount can be invested in any one mortgage;
 - (b) except for a mortgage approved or insured under the National Housing Act (Canada), which must be transferred at market value, state that the insurer cannot sell or transfer mortgage investments from or to a segregated fund of the insurer, to or from another fund of the insurer. A sale or transfer of a mortgage investment to a segregated fund from another fund of the insurer within 60 days of the first advance under the mortgage shall not be considered as a sale or transfer where there has been no material change in value since the date of

the first advance. However, a sale or transfer may be made provided that such sale or transfer is effected at fair value as determined by an independent qualified appraiser;

- (c) where more than 10% of the segregated fund's market value is invested in mortgages or will be invested in mortgages, state the methods used to determine the market value of the mortgages, consistent with the following:

(i) all mortgages must be divided into categories of similar risk characteristics. Certain mortgages must be placed in their own category, such as: leasehold mortgages; participation mortgages; mortgages on land only; construction mortgages and mortgages in default over 6 months;

(ii) mortgages in each category must be valued at a principal amount that will produce the prevailing rate of return of new mortgage loans in that category and for an assumed duration. Refer to the remaining term to maturity, the period remaining until the date the mortgage can be repaid, and the relationship between the interest rate of the mortgage and the current existing market interest rates for that category of mortgages; and

(iii) to calculate the value of a wrap-around mortgage, the wrap-around mortgage and the original mortgage shall each be valued separately, as set out in subparagraph (ii), and the value of the mortgage or mortgages must be deducted from the value of the wrap-around mortgage; and

- (d) where a segregated fund is invested in mortgages over 30% of the net asset value of the fund, there are minimum levels that must be met as a percentage or amount of the net asset value of the segregated fund held in liquid assets, as follows:

Net Asset Value of the Fund	Minimum Amount to be in Liquid Assets
Less than \$1,000,000	25% of net asset value of the fund
\$1,000,000 or more and less than \$2,000,000	20% of net asset value of the fund or \$250,000 whichever is greater
\$2,000,000 or more and less than \$5,000,000	15% of net asset value of the fund or \$400,000 whichever is greater
\$5,000,000	10% of the net asset value of the fund or \$750,000, whichever is greater.

- (2) A segregated fund is not permitted to invest in mortgages until its net assets are equal to or greater than \$350,000.
- (3) A segregated fund is not permitted to invest more than 10% of its assets in mortgages, unless the segregated fund is a mortgage fund. Only mortgages, representing up to 75% of the fair market value of the real estate as appraised by a qualified appraiser, unless insured, on real estate situated within Canada are permissible investments.
- (4) In addition to the general requirements for segregated funds set out in these Guidelines, a segregated fund held as a mortgage fund must comply with the following additional requirements:

(a) "Liquid" or "liquidity" means,

- (i) cash and treasury bills or other evidences of indebtedness issued, or fully guaranteed as to principal and interest, by:

(C) any Canadian financial institution as that term is defined under the Insurance Companies Act (Canada), provided that such treasury bills or other evidences of indebtedness have an approved credit rating; and

- (ii) a NHA or provincially-insured mortgage-backed security.

- (b) The mortgage fund shall maintain the following liquidity levels:

below \$1 million	\$100,000
\$1 to \$2 million	10%
\$2 to \$5 million	\$200,000 + 9% on the next \$3 million
\$5 to \$10 million	\$470,000 + 8% on the next \$5 million

\$20 to \$30 million	\$1.52 million + 6% on the next \$10 million
over \$30 million	\$ 2.17 million + 5% on the excess.

- (c) The mortgage fund shall not invest in commercial, industrial or residential properties of more than 8 units until the mortgage fund has net assets totalling more than \$15,000,000.

10.7 Borrowing:

- (1) An insurer shall not on behalf of a segregated fund pledge, mortgage or hypothecate its assets, except: (i) in the course of an acquisition or a renewal of the pledge, mortgage or hypothec; (ii) as a temporary measure for the purpose of accommodating requests for the redemption of units of the segregated fund while effecting an orderly liquidation of portfolio securities, and then only if after giving effect to such borrowing the outstanding amount of all such borrowings does not exceed 5% of the net assets of the segregated fund taken at market value at the time of such borrowing; or (iii) in accordance with Section 10.7(2) and (3) below.
- (2) A real estate segregated fund shall not assume or incur any indebtedness under a mortgage on the security of real property unless, at the date of the proposed assumption or incurring of indebtedness:

- (b) the aggregate of (i) the total indebtedness of the segregated fund under mortgages on the security of real property and (ii) the amount of additional indebtedness proposed to be assumed does not exceed 50% of the total asset value of the segregated fund.
- (3) An insurer shall not on behalf of a real estate segregated fund directly or indirectly guarantee any indebtedness or liabilities of any kind except indebtedness assumed or incurred under a mortgage on the security of real property by a corporation wholly-owned by the insurer and operated solely for the purpose of holding a particular real property or properties on behalf of the segregated fund where such mortgage, if granted directly, would not cause the segregated fund to contravene Section 10.7(2) above.

10.8 Non-Arm's Length Transactions:

A segregated fund shall purchase an investment based on its prevailing market price, or where an investment is purchased other than through normal market facilities, based on what would have been its reasonably negotiated price with an arm's length party.

PART XI - PARTITIONING OF ASSETS HELD IN SEGREGATED FUNDS:

11.1 General:

This Part applies to the partitioning of assets within a segregated fund, other than as a routine internal accounting practice performed in the ordinary course of business, in order to effect a merger or other reorganization of a segregated fund.

11.2 Equitable Allocation:

Where an insurer wishes to partition assets within a segregated fund, the insurer shall determine that the allocation of assets is equitable to all variable insurance contractholders whether or not their variable insurance contracts are registered or non-registered, or were purchased by way of individual or group contracts.

11.3 Notice to Contractholders:

Each contractholder and each applicable Insurance Regulator shall receive written notice by regular mail to their last known address of such a partitioning of assets within a segregated fund at least 60 days prior to its occurrence. If the partitioning of assets occurs in conjunction with a merger of segregated funds, then the notice shall describe both events, and comply with Part XII below. If the partitioning of assets is not done in conjunction with a merger of segregated funds, then the notice shall explain why the insurer is partitioning the assets of the fund.

11.4 Terms of the Contract:

It is the duty of the insurer to satisfy itself that any partitioning of assets within a segregated fund complies with the terms of the individual and group variable insurance contracts that it has issued with respect to such a segregated fund.

PART XII - MERGER OF SEGREGATED FUNDS:

12.1 Merger with Another Segregated Fund of the Same Insurer:

From time to time, an insurer offering segregated funds as an investment under individual variable insurance contracts may wish to merge one of its segregated funds with another one (or more) of its segregated funds. The following additional steps are required to be taken:

- (a) The documents that create and support the merger shall be filed with the applicable Insurance Regulator(s) and shall provide the following information:

- (i) all relevant legal and financial documents setting out the particulars of the two or more segregated funds proposed to be merged (the "terminating funds"), including a list of all affected contractholders from the terminating funds;
- (ii) the method of merger (e.g., short form vertical amalgamation) of the terminating funds and the details of the managerial and custodial arrangements made for the resulting segregated fund (the "continuing fund"), including the details of any partitioning of assets from the terminating funds, as set out in Part XI above;
- (iii) the benefits and rights that accrue to the affected contractholders under the continuing fund, including all details surrounding the assumption of any guarantees, rights, and the assumption of contract maturity dates for the continuing fund; and

- (c) The written notice required in paragraph (b) above shall include an option permitting the affected contractholders of the terminating funds to "cash-out" their individual variable insurance contracts, without being charged any exit fees, provided that they give written notice of this election to their insurer at least 5 business days prior to the date of the proposed merger.

- (d) The written notice required in paragraph (b) above shall clearly state that if the contractholder chooses the "cash-out" option, rather than proceed with the merger, that the contractholder will receive the fair market value of the terminating fund held under the individual variable insurance contract, but will not receive the guarantee benefit, unless the individual variable insurance contract has reached maturity, or it coincides with the death benefit.

12.2 Merger with Another Segregated Fund of a Different Insurer:

Different insurers may wish to merge their segregated funds (the "terminating funds") into a "continuing fund" arising from the merger of the insurers themselves, or as part of the sale of a block of insurance business. In such event, the following steps are required to be taken:

- (a) The documents that create and support the continuing fund, resulting from the merger of the terminating funds, shall be filed with the applicable Insurance Regulator(s) by the insurer assuming the continuing funds, and shall provide the following information:
- (i) all relevant legal and financial documents regarding the particulars of the terminating funds;
- (ii) the method of merger of the terminating funds and the arrangements made for the continuing fund, including the details of any partitioning of assets from the terminating funds, as set out in Part XI; above;

 - (v) any other information in connection with the steps to be taken under this Section that the applicable Insurance Regulator(s) requests.
- (b) The insurer assuming the continuing fund shall assume all guarantees and maturity dates in the continuing fund that arise from the terminating funds.
 - (c) Written notice of the proposed merger shall be sent by regular mail to the affected contractholders of the terminating funds by each respective insurer to each contractholder's last known address.
 - (d) It is the responsibility of the insurer assuming the continuing fund to disclose to the contractholders any significant income tax implications resulting from the proposed merger.
 - (e) The written notice required in paragraph (c) above shall include an option permitting the affected contractholders of the terminating funds to "cash-out" their individual variable insurance contracts, without being charged any exit fees, provided that they give written notice of this election to their insurer at least 5 business days prior to the date of the proposed merger.
 - (f) The written notice required in paragraph (c) above shall clearly state that if the contractholder chooses the "cash-out" option, rather than proceed with the merger, the contractholder will receive the fair market value of the terminating fund held under the individual variable insurance contract, but will not receive the guarantee benefit, unless the individual variable insurance contract has reached maturity, or it coincides with the death benefit.
- (v) every other item of income that is material to the total revenue;

INDIVIDUELS À CAPITAL VARIABLE
AFFÉRENTS AUX FONDS DISTINCTS**

**APPROUVÉES PAR LE CONSEIL CANADIEN
DES RESPONSABLES DE LA RÉGLEMENTATION
D'ASSURANCE ET PAR LE
CONSEIL D'ADMINISTRATION DE L'ACCAP**

4 MARS 1997

1^{er} juillet 1997

**LIGNES DIRECTRICES DE L'ACCAP
APPLICABLES AUX CONTRATS
INDIVIDUELS À CAPITAL VARIABLE
AFFÉRENTS AUX FONDS DISTINCTS**

Avant-propos

Les directives du Conseil canadien des responsables de la réglementation d'assurance et de l'Association canadienne des compagnies d'assurances de personnes inc. (ACCAP) sur la divulgation de renseignements relatifs aux contrats individuels à capital variable énoncées dans les lignes directrices 23, 24, 86, 87 et 88 de l'ACCAP, de même que dans le Code canadien des normes de la publicité (ces documents sont désignés ici sous le nom d'«anciennes lignes directrices»), ont été révisées et regroupées, avec les dispositions législatives pertinentes, pour produire les présentes Lignes directrices de l'ACCAP applicables aux contrats individuels à capital variable afférents aux fonds distincts.

À l'exception de la Partie XIII - Obligations de comptabilité et de vérification - et de l'exigence que renferme le point E - États financiers - de la Formule 1, au sujet des états financiers vérifiés, les lignes directrices s'appliqueront à compter du 1^{er} juillet 1997 à tous les contrats individuels à capital variable, qu'ils aient été souscrits à partir de cette date ou antérieurement. Elles entreront intégralement en vigueur le 1^{er} janvier 1998. Toutefois, l'ACCAP tient à signaler que les Parties XI - Partition des éléments d'actif détenus dans les fonds distincts - et XII - Fusion de fonds distincts - ne bénéficient pas encore des modifications proposées à la *Loi de l'impôt sur le revenu*, lesquelles éviteraient aux souscripteurs de subir les effets de dispositions non souhaitées.

À noter également que les présentes lignes directrices ne s'appliqueront pas aux contrats collectifs à capital variable afférents aux fonds distincts.

La formation des agents vie et les compétences exigées de ces derniers ne sont pas visées par les présentes lignes directrices.

PARTIE I - APPLICATION

1.1 Généralités

À l'exception de la Partie XIII - Obligations de comptabilité et de vérification - et du point E - États financiers - de la Formule 1, les présentes lignes directrices s'appliquent aux contrats individuels à capital variable visés par la définition que renferme le point 2.1, à compter du 1^{er} juillet 1997. Du 1^{er} juillet 1997 jusqu'à la date à laquelle les premiers états financiers vérifiés seront exigibles, les états financiers exigés au point E de la Formule 1 n'ont pas à être vérifiés. Les présentes lignes directrices entreront intégralement en vigueur le 1^{er} janvier 1998. Les premiers états financiers vérifiés exigés en vertu du point E de la Formule 1 seront exigibles quatre mois après la date de clôture de l'exercice financier de l'assureur terminé au cours de 1998.

1.2 Non-application des lignes directrices

Les contrats collectifs afférents aux fonds distincts ne sont pas assujettis aux présentes lignes directrices.

Sont également exemptés les contrats individuels à capital variable visés par la définition que renferme le point 2.1 mais qui, depuis le 1^{er} juillet 1997 inclusivement, ne sont plus offerts au public, à condition que l'assureur ait cessé de faire souscrire tout contrat de ce genre. Dans ce cas, l'assureur doit au moins se conformer aux exigences que renfermaient les anciennes directives du Conseil canadien des responsables de la réglementation d'assurance et de l'ACCAP, énoncées dans les lignes directrices 23 et 24 de l'ACCAP et ce, pour ce qui est de tous les contrats en vigueur. L'assureur qui continue de commercialiser des contrats individuels à capital variable en général mais qui a cessé d'en faire souscrire un type en particulier doit se conformer aux présentes lignes directrices révisées pour ce qui est de tous les contrats individuels à capital variable établis.

PARTIE II - DÉFINITIONS

2.1 Dans les présentes lignes directrices :

- a) «**Assureur**» s'entend d'une société d'assurance vie autorisée à faire souscrire de l'assurance vie en vertu des lois de la province ou du territoire à l'égard duquel s'appliquent les présentes lignes directrices.
- b) «**Bon de souscription**» s'entend d'un contrat d'option conférant le droit d'acheter des titres (de l'actif sous-jacent) dans un délai et à un prix déterminés. Les bons de souscription sont émis seuls ou en conjonction avec la vente d'autres titres, dans le cadre d'une fusion ou d'une restructuration du capital et, parfois, pour faciliter un dessaisissement des titres d'une autre société.
- c) «**Changement important**» s'entend d'un changement touchant un fait et devant être divulgué dans la notice explicative, autre qu'un changement relatif aux placements détenus par le fonds distinct, et qui pourrait vraisemblablement influencer sur la décision d'un souscripteur éventuel.

d) **«Communication commerciale»** s'entend :

- i) d'une annonce publicitaire;
- ii) d'une communication verbale ou écrite utilisée par un agent vie ou un assureur dans le but de faire souscrire un contrat individuel à capital variable; ou
- iii) d'un rapport aux souscripteurs;

sans toutefois inclure :

- iv) une communication interne entre un agent vie, un conseiller en placements, un gestionnaire et un assureur, non conçue pour être transmise à un souscripteur actuel ou éventuel, ni
- v) une notice explicative.

Aucune communication commerciale ne peut présenter un fonds distinct comme un fonds de marché monétaire ou un fonds court terme, ou laisser entendre qu'un fonds distinct est un fonds de marché monétaire, à moins que, au moment de l'utilisation de l'annonce et pour chaque période pour laquelle on fournit des données standard sur le rendement, le fonds distinct réponde à la définition d'un fonds de marché monétaire et qu'il soit prévu qu'il continuera à le faire.

e) **«Conseiller»** s'entend d'une personne ou d'une société offrant, ou étant présumée offrir, des conseils en matière de placement dans des titres ou d'achat et de vente de titres.

f) **«Contrat à terme négocié de gré à gré»** s'entend d'un contrat utilisé à des fins de spéculation, de couverture ou d'arbitrage, et consistant à acheter ou à vendre un montant donné ou une quantité déterminée de l'actif sous-jacent.

h) **«Contrat d'option»** s'entend d'un contrat conférant le droit d'acheter ou de vendre une marchandise ou un actif financier à un prix d'exercice stipulé d'avance et soit à une date déterminée, soit à n'importe quel moment avant une échéance préétablie.

i) **«Contrat individuel à capital variable»** s'entend d'un contrat individuel d'assurance vie, y compris une rente ou l'engagement de verser une rente, tel que défini par les lois provinciales et territoriales sur les assurances et par le Code civil du Québec, dont les provisions varient en fonction de la valeur de marché des éléments d'actif détenus dans un fonds distinct, et qui comporte une disposition stipulant que les participations sont déposées dans un fonds distinct.

j) **«Contrepartie»** s'entend d'une partie à une opération à terme, autre que l'assureur, qui agit pour le compte d'un fonds distinct.

k) **«Évaluateur qualifié»** s'entend d'un évaluateur qui possède les connaissances, les compétences, l'expérience et l'intégrité requises pour s'acquitter de ses fonctions. Bien que les assureurs ne soient pas tenus de choisir un évaluateur détenant un titre professionnel reconnu, ils doivent traiter avec des personnes répondant aux exigences susmentionnées.

Les critères de sélection appliqués par l'assureur doivent permettre de faire en sorte que les personnes chargées de l'évaluation du fonds distinct soient, à tout le moins :

- i) expérimentées et qualifiées, et qu'elles possèdent les connaissances voulues à l'égard du marché de l'immobilier - plus précisément dans la région dans laquelle l'évaluation est faite - et du genre d'immeubles en cause;
- ii) sans lien avec l'immeuble évalué ni avec les personnes avec lesquelles traite l'assureur pour ce qui est des opérations sur cet immeuble.

l) **«Évaluateur qualifié indépendant»** s'entend d'un évaluateur qualifié qui

i) n'a pas d'intérêt direct ou indirect, financier ou autre, à l'égard de l'immeuble faisant l'objet de l'évaluation ou à l'égard de la partie à l'opération sur cet immeuble avec laquelle traite l'assureur;

ii) n'est pas un employé à plein temps de l'assureur dont le fonds distinct fait l'objet de l'évaluation, ni d'une société apparentée ou associée de l'assureur.

m) **«Examineur de l'ACCAP»** s'entend de la personne chargée par l'Association canadienne des compagnies d'assurances de personnes d'examiner les ébauches de contrats individuels à capital variable et de documents y afférents soumises par un assureur, dans le but de déterminer si elles sont conformes aux présentes lignes directrices.

n) **«Exposition au risque de crédit maximum»** s'entend de l'exposition actuelle ayant une valeur positive (résultant d'une évaluation au prix du marché).

o) **«Exposition éventuelle»** s'entend

i) dans le cas de contrats à terme normalisés ou de tous autres instruments échangés dans une bourse reconnue, du dépôt de garantie initial exigé pour effectuer l'opération;

ii) dans le cas de swaps, de tunnels et de contrats à terme négociés de gré à gré, du montant nominal multiplié par la racine carrée du nombre d'années jusqu'à l'échéance (échéance résiduelle) multiplié par un écart de 0,5 % pour les contrats de taux d'intérêt et de 3 % pour les contrats de change et les contrats d'actions;

iii) dans le cas de swaps, de tunnels et de contrats à terme négociés de gré à gré qui sont structurés pour couvrir les risques à des dates de paiement précisées et lorsque les taux ont été redéterminés de façon à ce que la valeur de marché du contrat soit nulle à ces dates, l'échéance résiduelle est réputée être la prochaine date à laquelle ont été redéterminés ces taux.

p) **«Fonds distinct»** s'entend d'un fonds maintenu séparément par un assureur et à partir duquel sont versées des prestations non garanties au titre d'un contrat individuel à capital variable.

q) **«Fonds de marché monétaire»** s'entend d'un fonds distinct faisant l'objet d'une option de placement prévue par un contrat individuel à capital variable et qui répond et prévoit continuer de répondre aux conditions ci-après :

i) tout son actif est constitué de liquidités ou de titres de créances à échéance de 13 mois (25 mois pour les titres gouvernementaux) ou moins, ou de titres de créances à taux flottant dont le cours est proche du pair au moment de chaque modification du taux des intérêts à verser aux porteurs de ces titres;

ii) la durée moyenne pondérée à courir jusqu'à l'échéance du portefeuille est au maximum de 180 jours;

iii) l'actif est constitué au moins à 95 p. 100 de liquidités ou de titres libellés dans la même monnaie que les unités du fonds distinct;

iv) l'actif est constitué au moins à 95 p. 100 de liquidités ou de titres de créances dont les émetteurs bénéficient d'une notation approuvée du papier commercial (Annexe I des présentes lignes directrices).

Pour le calcul de la durée moyenne pondérée à courir jusqu'à l'échéance du portefeuille du fonds de marché monétaire, la durée d'une obligation à taux flottant est celle de la période à courir jusqu'à la prochaine date de fixation du taux d'intérêt.

- r) «**Fonds secondaire**» s'entend d'un fonds distinct, d'un organisme de placement collectif ou de tout autre fonds, y compris un fonds lié aux unités appelées TIPS, dans lequel un fonds distinct peut investir, conformément au point 10.3 des présentes lignes directrices.
- s) «**Frais**» s'entend des frais d'acquisition, de placement, de gestion, d'administration, d'ouverture ou de fermeture de compte, de rachat ou de transfert, ainsi que de tous les autres frais, qu'ils soient ou non éventuels ou différés, qui sont ou peuvent être payables en rapport avec l'acquisition, la détention, le transfert ou le rachat d'unités d'un fonds distinct.
- t) «**Frais au choix**» s'entend de toutes les modalités offertes au souscripteur d'un contrat individuel à capital variable et dont il résulte que plus d'une grille de frais s'applique à un fonds distinct.
- u) «**Garantie de taux plafond**» s'entend d'un contrat d'option sur différence de taux d'intérêt, conclu de gré à gré, par lequel est fixée à l'avance une limite supérieure au taux d'intérêt et qui, moyennant le versement d'une prime au vendeur, confère à l'acheteur le droit d'encaisser, et impose au vendeur l'obligation de verser, à chaque période de référence, la différence d'intérêt entre un taux variable de référence et le taux plafond fixé par le contrat, si ce dernier taux est inférieur.
- v) «**Gestionnaire**» s'entend d'une personne ou d'une société qui a le pouvoir ou la responsabilité de diriger les affaires du fonds distinct et dont les fonctions consistent notamment à gérer le portefeuille de ce fonds et à fournir des conseils y afférents.
- w) «**Information sur le rendement**» s'entend d'une cote, d'un classement, ou d'un résultat d'une étude ou d'une analyse concernant le rendement, la volatilité et les autres mesures ou descriptions du rendement du fonds distinct; les données en cause doivent satisfaire aux conditions ci-après.

Une communication commerciale ne peut contenir d'information sur le rendement que si elle est conforme aux exigences suivantes :

- i) pendant la période de mesure du rendement, se sont produits des changements dans la gestion du fonds distinct, dans ses objectifs de placement fondamentaux, dans sa nature de fonds de marché monétaire, chez son conseiller en placement, dans le contrôle du gestionnaire ou dans les frais, y compris l'exonération ou l'absorption de ces derniers, et que ces changements sont ou pourraient être raisonnablement considérés comme étant de nature à modifier de façon importante le rendement du fonds distinct, la communication commerciale contient :
 - A) un exposé sommaire de ces changements ou une mention précisant que le fonds distinct a subi, pendant la période de mesure du rendement, des changements qui seraient de nature à [selon le cas, modifier, augmenter, réduire] le rendement du fonds distinct si leur effet avait été présent pendant toute la période;
 - B) pour un fonds de marché monétaire qui, pendant la période de mesure du rendement, n'a pas payé ou comptabilisé le montant total des frais payables par le fonds distinct ou des frais récurrents payables par tous les souscripteurs, la différence entre ce montant total et le montant effectivement comptabilisé, exprimé en pourcentage annualisé sur une base comparable à celle décrite pour le rendement courant,
 - C) pour tout fonds autre qu'un fonds de marché monétaire, une description de la méthode utilisée pour établir l'information sur le rendement pendant la période de mesure du rendement ainsi qu'une mention précisant que ce calcul a été effectué sur une base nette ainsi que les frais qui ont été déduits;

et

- ii) la communication commerciale n'est pas un rapport aux souscripteurs et qu'elle porte sur un fonds de marché monétaire, les données standard sur le rendement qui sont fournies sont calculées sur la période de sept jours la plus récente pour laquelle il est possible de les calculer, compte tenu des délais de publication, à la condition que cette période de sept jours ne soit pas antérieure de plus de trois mois à la date de parution ou d'utilisation de l'annonce publicitaire qui les renferme, ni antérieure de plus de trois mois à la date de première publication de toute autre communication commerciale dans laquelle ces données sont utilisées;
- ou
- iii) pour tout fonds autre qu'un fonds de marché monétaire, le taux de rendement indiqué correspond au rendement composé annuel global historique, compte tenu des fluctuations de la valeur des unités et du réinvestissement ou de la distribution des dividendes, mais compte non tenu des commissions de vente, des frais de rachat, de distribution ou d'autres frais au choix assumés par un souscripteur et qui auraient fait baisser le rendement.
- x) «**Instrument dérivé**» s'entend d'un instrument financier dont la valeur est fonction de celle d'une marchandise ou d'un actif financier qui lui est sous-jacent, par exemple un contrat à terme ou un contrat d'option.

- i) la valeur de marché de l'instrument dérivé, si son règlement se soldait par un versement final en espèces à l'assureur, ou

Pour qu'une opération compense ou réduise le risque lié à un ou plusieurs placements, il faut qu'il existe un degré élevé de corrélation entre la valeur de marché du ou des placements couverts et les instruments employés pour couvrir la position. Le terme s'applique aussi à la couverture de tout ou partie du risque de change d'un ou de plusieurs placements, soit directement, soit par une couverture croisée de devises.

- a) des documents établissant le contrat individuel à capital variable;
- b) de la note d'information sommaire pour chaque fonds distinct décrit dans la notice explicative, et de tout autre document attestant, par exemple, l'approbation relative à l'enregistrement du contrat;
- c) de la notice explicative, telle que décrite au point 5.2, que l'assureur utilisera dans le cadre de la souscription de ce genre de contrat, y compris le libellé de l'attestation devant être signée par deux des personnes suivantes : le chef de la direction, le responsable des placements, le directeur financier ou le secrétaire de l'assureur, ou encore un administrateur ou un cadre supérieur désigné à cette fin.

3.2 Vérification de la conformité

L'examineur de l'ACCAP doit, afin d'en vérifier la conformité avec les présentes lignes directrices, étudier les documents originaux ou tout changement important apporté à la notice explicative antérieurement soumise à un responsable de la réglementation d'assurance, et ce, dans les 30 jours suivant la date de réception des documents de l'assureur. Toute notice explicative antérieurement soumise ou tout autre document révisé antérieurement soumis doit être présenté sous forme provisoire, dans une version propre et dans une version laissant voir où les modifications ont été apportées.

3.3 Lettre à l'assureur

Si les documents provisoires ne satisfont pas aux exigences des présentes lignes directrices ou nécessitent de nouvelles modifications, l'examineur de l'ACCAP enverra à l'assureur une lettre indiquant quels sont les problèmes.

3.4 Modification et nouvelle soumission des documents

Sur réception de la lettre mentionnée au point 3.3, l'assureur apportera les modifications qui s'imposent aux documents provisoires et les soumettra de nouveau à l'examineur de l'ACCAP, qui les réétudiera et, s'il y a lieu, fera de plus amples commentaires.

3.5 Exemplaires à soumettre aux responsables de la réglementation d'assurance

Une fois que l'examineur de l'ACCAP aura déterminé que les documents provisoires sont conformes aux présentes lignes directrices et prêts à être déposés auprès des responsables de la réglementation d'assurance concernés, l'assureur fera parvenir à l'examineur un nombre suffisant d'exemplaires desdits documents, accompagnés des lettres d'envoi adressées à chacun d'entre eux, lesquels seront transmis aux responsables de la réglementation d'assurance concernés, conformément à la Partie IV des présentes lignes directrices. Une version propre et une version laissant voir où les modifications ont été apportées doivent être soumises pour chaque document antérieurement déposé et ayant subi des modifications importantes. À noter qu'une version française des documents est exigée pour le Québec et le Nouveau-Brunswick.

3.6 Dépôt des documents provisoires accompagnés d'une lettre d'accord présumé de l'ACCAP

L'examineur de l'ACCAP soumettra sur-le-champ à chaque responsable de la réglementation d'assurance concerné les documents provisoires accompagnés d'une lettre d'accord présumé de l'ACCAP, conformément à la Partie IV des présentes lignes directrices et ce, à la demande de l'assureur.

3.7 Réponse des responsables de la réglementation d'assurance

Toute communication écrite de la part d'un responsable de la réglementation d'assurance concernant les documents provisoires sera adressée directement à l'assureur, lequel en enverra une copie à l'examineur de l'ACCAP. L'assureur répondra directement à tout commentaire formulé par le responsable, et fera parvenir à l'examineur de l'ACCAP une copie de sa lettre de réponse.

L'examineur de l'ACCAP soumettra aux responsables de la réglementation d'assurance concernés les documents définitifs imprimés de l'assureur et la lettre d'accompagnement de l'ACCAP, dès qu'il aura reçu de l'assureur :

- a) les documents définitifs imprimés, la notice explicative devant être dûment certifiée par l'assureur;
- b) le certificat délivré par le responsable de la réglementation d'assurance de chaque territoire de compétence où la loi exige la délivrance d'un tel certificat;
- c) dans les territoires de compétence où le responsable de la réglementation d'assurance n'est pas légalement tenu de délivrer un certificat, une attestation écrite qu'au moins 30 jours se sont écoulés depuis la remise des documents provisoires audit responsable de la réglementation d'assurance, conformément au point 3.6 des présentes lignes directrices, et que l'assureur n'a pas entre-temps été avisé par écrit par le responsable de la réglementation que les documents n'étaient pas acceptables.

L'assureur pourra ensuite commencer à commercialiser le contrat individuel à capital variable dans le territoire de compétence concerné.

PARTIE IV - DÉPÔT DES DOCUMENTS AUPRÈS DES RESPONSABLES DE LA RÉGLEMENTATION D'ASSURANCE

4.1 Dépôt des documents provisoires auprès des responsables de la réglementation d'assurance

À condition de s'être conformé aux exigences de la Partie III des présentes lignes directrices, l'assureur qui prévoit conclure un contrat individuel à capital variable dans un territoire de compétence donné doit déposer auprès du responsable de la réglementation d'assurance concerné, au moins 30 jours à l'avance, la version provisoire

- a) des documents établissant le contrat individuel à capital variable;
- b) de la notice explicative, telle que décrite au point 5.2, que l'assureur utilisera dans le cadre de la souscription de ce genre de contrat; la notice doit être attestée par deux des personnes suivantes : le chef de la direction, le responsable des placements, le directeur financier ou le secrétaire de l'assureur, ou encore un administrateur ou un cadre supérieur désigné à cette fin, ainsi que de la note d'information sommaire relative à chaque fonds distinct décrit dans la notice explicative.

4.2 Nouveau dépôt de la notice explicative

À condition de s'être conformé aux exigences de la Partie III des présentes lignes directrices en rapport avec des changements importants, l'assureur ayant déposé une notice explicative relative à un contrat individuel à capital variable doit remettre au responsable de la réglementation d'assurance concerné, s'il continue de conclure ce genre de contrat, un exemplaire dûment certifié, conformément au point 4.1, de toute nouvelle notice explicative relative à ce dernier (dans une version propre et dans une version laissant voir où les modifications ont été apportées) et ce, comme le prévoit la Formule 2 (Rapport de conformité) dûment signée :

- a) dès qu'est apporté un changement important à la dernière version de la notice explicative déposée à l'égard de ce genre de contrat;
- b) dans un délai
 - i) d'un an et un mois suivant la date du dépôt de la plus récente version de la notice explicative, ou
 - ii) de seize mois suivant la date des états financiers vérifiés contenus dans la dernière version de la notice explicative, si cette date est antérieure à la première.

PARTIE V - OBLIGATIONS GÉNÉRALES D'INFORMATION

5.1 Information à dispenser dans le contrat

Les documents établissant le contrat individuel à capital variable doivent :

- a) en page couverture ou en page titre, renfermer la mise en garde suivante inscrite en lettres majuscules et en caractères gras :

«SOUS RÉSERVE D'UNE GARANTIE APPLICABLE AU DÉCÈS OU À L'ÉCHÉANCE, TOUTE FRACTION DE LA PRIME OU TOUT MONTANT AFFECTÉ À UN FONDS DISTINCT SONT INVESTIS AUX RISQUES DU SOUSCRIPTEUR ET LEUR VALEUR PEUT AUGMENTER OU DIMINUER EN FONCTION DES FLUCTUATIONS DE LA VALEUR DE MARCHÉ DES ÉLÉMENTS D'ACTIF DU FONDS.»

- b) inclure une description des prestations payables en vertu du contrat et indiquer celles qui sont garanties et celles qui ne le sont pas puisqu'elles varient selon la valeur de marché des éléments d'actif du fonds distinct dont elles proviennent;
- c) énoncer :
 - i) la méthode de calcul des prestations liées à la valeur de marché des éléments d'actif du fonds et de la valeur de rachat du contrat, et
 - ii) lorsqu'une disposition prévoit qu'une fraction de la prime servira à capitaliser les prestations fondées sur la valeur de marché des éléments d'actif du fonds, le pourcentage de la prime ainsi affecté;

- d) préciser la fréquence des évaluations du fonds distinct - soit au moins une par mois - lors desquelles sera calculée la valeur des prestations fondées sur la valeur de marché des éléments d'actif du fonds;
- e) décrire les frais ou les méthodes de calcul des frais imputés au fonds, notamment aux fins de l'imposition et de la gestion.

5.2 Information à dispenser dans la notice explicative

La notice explicative relative à un contrat individuel à capital variable doit :

- a) fournir, dans un langage simple, sans que soient utilisés, dans la mesure du possible, des termes techniques et sans référence à des questions non pertinentes, les renseignements qu'exige la Formule 1, dans l'ordre qui convient le mieux pour décrire le contrat et non nécessairement dans celui prévu par la Formule 1, sauf en ce qui concerne l'article 1;
- b) contenir les états financiers vérifiés et les notes y afférentes exigés au titre des articles 16, 17, 18, 19 et 20 de la Formule 1 - ou en être accompagnée - dont la date n'est pas antérieure à la clôture du dernier exercice de l'assureur;
- c) comporter, en page couverture ou en page titre, le titre «notice explicative» ainsi qu'une déclaration distincte précisant qu'il ne s'agit pas d'un contrat d'assurance;
- d) présenter, immédiatement après la page couverture ou la page titre, un résumé d'une page, sous forme télégraphique, des points saillants du document. Ce résumé ne peut être présenté séparément et doit recommander au lecteur de prendre connaissance des états financiers vérifiés du fonds distinct; il doit en outre comporter la déclaration suivante informant les souscripteurs de leurs droits fondamentaux :

«La présente notice explicative renferme une description des principales caractéristiques du contrat individuel à capital variable. Sous réserve d'une garantie applicable au décès ou à l'échéance, toute fraction de la prime ou tout montant affecté à un fonds distinct sont investis aux risques du souscripteur et leur valeur peut augmenter ou diminuer en fonction des fluctuations de la valeur de marché des éléments d'actif du fonds.»;

- e) renfermer un bref sommaire de la politique de placement de chaque fonds distinct, conformément au point 10.1(1), y compris une déclaration informant le souscripteur éventuel qu'une description détaillée de la politique de placement de chaque fonds distinct lui sera remise par l'assureur sur demande, et précisant la marche à suivre pour obtenir cette description ou y avoir accès;
- f) être conforme aux exigences de la Partie VIII - Publicité;
- g) contenir une note d'information sommaire - ou en être accompagnée - pour chaque fonds distinct.

5.3 Information à dispenser dans le cas d'un fonds distinct immobilier

La notice explicative relative aux contrats individuels à capital variable afférents à un fonds immobilier doit :

- a) faire ressortir le caractère à long terme des placements dans ce genre de fonds;
- b) mentionner que ce genre de contrat ne peut être racheté qu'à des dates précises et uniquement si l'ordre de rachat a été donné dans un délai précisé au contrat, et qu'il ne constitue pas, par conséquent, un placement approprié pour les souscripteurs souhaitant être en mesure de convertir rapidement leur placement en liquidités;

- c) mentionner qu'un ordre de rachat d'un contrat individuel à capital variable peut être mis en attente s'il est donné à un moment où le fonds distinct ne dispose pas de suffisamment de liquidités ou de titres facilement négociables pour exécuter un tel ordre;
- d) mentionner que la valeur liquidative du fonds lors de l'émission ou du rachat de contrats individuels à capital variable est fondée sur les évaluations d'immeubles sous-jacents, que la valeur de marché de tout immeuble se situe à l'intérieur d'une fourchette, que l'évaluation ne constitue qu'une opinion et que rien ne garantit que la valeur ainsi accordée correspondra au prix auquel les biens seront vendus;
- e) mentionner que la valeur liquidative attribuée à chaque contrat individuel à capital variable aux fins de la souscription ou du rachat du contrat peut différer du montant qui serait versé au titulaire de ce contrat si le fonds était liquidé.

5.4 Compte rendu annuel à remettre au souscripteur

L'assureur doit fournir au souscripteur, dans les quatre mois suivant la date de clôture de chaque exercice successif, un compte rendu renfermant l'information ci-après :

- a) les renseignements requis en vertu de l'article 11 de la Formule 1;
- b) le ratio des frais de gestion, accompagné d'une brève explication;
- c) la valeur des prestations prévues par le contrat individuel à capital variable et qui sont fondées sur la valeur de marché des éléments d'actif du fonds distinct à la fin de la période couverte par le relevé;
- d) le montant qui, le cas échéant, a été affecté en vertu du contrat à un fonds distinct au cours de la période couverte par le relevé;
- e) le taux de rendement global du fonds calculé sur une base nette pour les dernières périodes d'un, de deux, de cinq et de dix ans, le cas échéant;
- f) des états financiers vérifiés pour l'exercice de l'assureur venant de se terminer.

PARTIE VI - REMISE DES DOCUMENTS AU SOUSCRIPTEUR ÉVENTUEL

6.1 Remise de la notice explicative

Avant que le souscripteur éventuel d'un contrat individuel à capital variable ne signe une proposition, il faut lui remettre une copie conforme de la notice explicative y afférente déposée auprès du responsable de la réglementation d'assurance du territoire de compétence concerné, conformément à la Partie IV des présentes lignes directrices.

Lorsqu'un contrat n'est pas un contrat individuel à capital variable au moment de son établissement mais qu'il est par la suite modifié pour en devenir un à la demande du souscripteur, une copie conforme de la notice explicative y afférente déposée conformément à la Partie IV des présentes lignes directrices doit être remise à ce dernier, si ce n'est déjà fait, avant la date de prise d'effet de la modification demandée.

6.2 Accusé de réception de la notice explicative

Lorsque l'assureur remet la notice explicative à son destinataire, conformément au point 6.1 ci-haut, il doit obtenir de ce dernier une déclaration signée attestant qu'il a bel et bien reçu un exemplaire de ladite notice.

6.3 Remise d'une note d'information sommaire

Une note d'information sommaire relative à chaque fonds distinct doit être remise au souscripteur éventuel en même temps que la notice explicative. Cette note peut être présentée séparément ou faire partie de la notice.

6.4 Exigences relatives à tout autre document écrit

Tout autre document écrit visant à inciter le souscripteur éventuel à acheter un contrat individuel à capital variable, doit :

- a) être conforme aux dispositions pertinentes dudit contrat, ainsi qu'à la Partie VIII - Publicité des présentes lignes directrices;
- b) renfermer la mise en garde suivante, en lettres majuscules et en caractères gras :

«SOUS RÉSERVE D'UNE GARANTIE APPLICABLE AU DÉCÈS OU À L'ÉCHÉANCE, TOUTE FRACTION DE LA PRIME OU TOUT MONTANT AFFECTÉ À UN FONDS DISTINCT SONT INVESTIS AUX RISQUES DU SOUSCRIPTEUR ET LEUR VALEUR PEUT AUGMENTER OU DIMINUER EN FONCTION DES FLUCTUATIONS DE LA VALEUR DE MARCHÉ DES ÉLÉMENTS D'ACTIF DU FONDS.»

PARTIE VII - ADMINISTRATION DES FONDS DISTINCTS

7.1 Tout assureur établissant et détenant un fonds distinct à titre de fonds de placement pour des contrats individuels à capital variable doit :

- a) préparer chaque année les états financiers du fonds tels que décrits à la Partie XIII des présentes lignes directrices;
- b) désigner un vérificateur chargé de faire les examens qu'il juge nécessaires pour pouvoir produire son rapport sur les états financiers du fonds;
- c) s'assurer de la qualité des mécanismes de contrôle interne mis en place à l'égard du fonds;
- d) s'assurer que le fonds ait, conformément à la Partie X des présentes lignes directrices, une politique de placement et veiller à ce que cette politique soit respectée;
- e) passer en revue toute fusion de fonds distincts ou partition des éléments d'actif à l'intérieur d'un fonds distinct, telles que décrites dans la Partie XI et dans la Partie XII des présentes lignes directrices;
- f) mettre à la disposition des agents vie la documentation nécessaire.

PARTIE VIII - PUBLICITÉ

8.1 Publicité

Nul assureur ou agent ne doit faire de promesse ni prendre d'engagement quant à la valeur future d'un fonds distinct ou au montant de tout intérêt dans un fonds distinct ou de toute prestation en provenant, sauf en ce qui concerne un remboursement garanti - total ou partiel - des primes au décès de l'assuré ou à l'échéance du contrat prévu par le contrat individuel à capital variable.

8.2 Pratiques malhonnêtes ou mensongères

Nul assureur ne doit se livrer à des pratiques malhonnêtes ou mensongères, telles :

- a) la publication d'exposés, de circulaires, de notes ou de comptes rendus qui présentent faussement ou omettent de

présenter des renseignements importants, dénaturant ainsi les stipulations, prestations ou avantages d'un contrat individuel à capital variable établi ou devant être établi;

- b) les déclarations fausses ou trompeuses relativement aux stipulations, prestations ou avantages d'un contrat individuel à capital variable établi ou devant être établi;
- c) la comparaison incomplète de son contrat individuel à capital variable avec un contrat individuel à capital variable d'un autre assureur dans le but ou avec l'intention d'inciter un souscripteur à laisser tomber en déchéance, à résilier ou à racheter son contrat;
- d) la comparaison incomplète d'un contrat individuel à capital variable avec un autre instrument de placement, au point de dénaturer les stipulations, les prestations ou les avantages du contrat individuel à capital variable;
- e) la publicité qui, directement ou indirectement, critique injustement les contrats, les services et les méthodes de ses concurrents;
- f) les activités ou défauts d'agir pouvant être jugés, en vertu des dispositions législatives d'un territoire de compétence donné, comme étant des pratiques ou des actes malhonnêtes ou mensongers.

8.3 Mots et phrases utilisés dans la publicité

Les mots et les phrases concernant l'assurance vie prévue par un contrat individuel à capital variable doivent être expliqués dans la publicité. Les expressions ordinairement utilisées dans les contrats à capital variable doivent être utilisées dans la publicité relative à ces contrats.

8.4 Clarté de la publicité écrite

Tous les renseignements donnés dans la publicité écrite doivent être présentés avec clarté et correspondre aux déclarations qui s'y rapportent ou être regroupés sous des rubriques appropriées, de sorte que la publicité repose sur des faits et que le texte de la publicité soit compréhensible et cohérent.

8.5 La publicité mentionnant les avantages d'un contrat individuel à capital variable doit aussi en mentionner les limitations

Lorsqu'une annonce publicitaire mentionne un avantage touchant la nature de la garantie, les prestations payables ou tout autre avantage qui se rattache à un contrat individuel à capital variable ou à l'une de ses dispositions, elle doit également mentionner, à proximité et de la même manière, toute limitation, exception ou réduction ayant un effet sur la nature de la garantie.

8.6 Publicité mentionnant une durée ou un âge comme condition

Une annonce publicitaire relative à un contrat individuel à capital variable, que ce dernier soit enregistré ou non, doit donner au souscripteur éventuel des renseignements appropriés concernant la date d'établissement du contrat, surtout si elle est liée à l'âge dudit souscripteur.

Une annonce publicitaire portant sur un régime enregistré d'épargne-retraite (REER) et mentionnant une durée ou un âge comme condition de validité du contrat doit indiquer que ledit régime doit être transformé en rente ou en fonds enregistré de revenu de retraite (FERR) avant la fin de l'année au cours de laquelle le souscripteur atteint l'âge limite précisé par les dispositions législatives applicables en matière d'imposition du revenu.

8.7 Publicité portant sur le renouvellement, la résiliation ou la cessation

Une annonce publicitaire mentionnant le renouvellement, la résiliation ou la cessation d'un contrat individuel à capital variable doit décrire les dispositions du contrat qui s'y rapportent.

8.8 Publicité trompeuse

Aucune annonce publicitaire relative à un contrat à capital variable ne doit

- a) contenir, implicitement ou non, des déclarations fausses, trompeuses, gratuites ou exagérées;
- b) faire des exposés trompeurs ou inexacts;
- c) contredire tout renseignement fourni dans la notice explicative ou dans une communication commerciale;
- d) contenir des témoignages faux ou trompeurs;
- e) déprécier les produits ou services d'autres sociétés;
- f) imiter délibérément le texte, les slogans ou les exposés d'autres annonceurs dans le but de tromper le consommateur;
- g) changer ou fausser le sens des déclarations d'autorités actuarielles, techniques, médicales ou professionnelles;
- h) utiliser une terminologie technique ou spécialisée sans tenir compte du niveau de compréhension du public;
- i) contenir des déclarations qui semblent fondées sur des données actuarielles ou techniques alors qu'en réalité elles ne le sont pas;
- j) offrir des garanties sans en expliquer clairement les conditions et les limites;
- k) renfermer des déclarations laissant entendre que les prestations peuvent être supérieures à celles prévues par le contrat;
- l) renfermer des déclarations susceptibles d'induire le public en erreur quant aux sommes versées à titre de prestations ou au nombre de personnes assurées, ou encore des renseignements statistiques concernant un assureur ou un contrat d'assurance;
- m) utiliser des statistiques sans en révéler la source.

8.9 Témoignages

Les témoignages cités dans une annonce publicitaire doivent être authentiques et de caractère général, et exprimer l'opinion de l'auteur à ce moment. Si l'assureur, ou une personne agissant en son nom, paie directement ou indirectement pour obtenir un témoignage ou une recommandation, la publicité doit en faire mention. L'assureur qui cite un témoignage est garant de son contenu.

8.10 Établissement de la véritable identité

L'annonce publicitaire doit établir la véritable identité de l'assureur et ne faire état d'aucune formule pouvant prêter à confusion notamment en matière de marque de commerce, de marque de service, de slogan ou de symbole. Doit également y être indiquée la date de sa première parution.

8.11 Raison sociale de l'assureur

La raison sociale de l'assureur doit être imprimée au complet dans une annonce publicitaire relative à un contrat individuel à capital variable et doit figurer bien en vue sur tout formulaire de proposition accompagnant ce contrat.

8.12 Exigences relatives au texte et mises en garde

Toute exclusion de responsabilité et toute information accompagnée d'un astérisque devraient, dans la publicité écrite, figurer en caractères suffisamment gros pour être bien visibles. Dans le cadre d'une communication commerciale écrite, les caractères

utilisés pour l'exclusion de responsabilité et la mise en garde doivent être d'une grosseur d'au moins 8 points; dans le cadre d'un message diffusé par voie électronique, l'information doit pouvoir être clairement vue ou entendue pendant une durée raisonnable.

Les caractères employés pour le reste du texte d'une communication commerciale écrite doivent être d'au moins 8 points.

Toute communication commerciale, qu'elle soit écrite ou transmise par voie électronique, doit inclure la mise en garde prescrite (et dûment modifiée par l'assureur faisant souscrire le contrat d'assurance vie ou le contrat de rentes immédiates prévoyant des placements dans un fonds distinct) conformément au point 5.2d), sauf lorsque la communication ne donne aucun renseignement sur le rendement et que la mise en garde constituerait plus de 50 p. 100 de la communication.

8.13 Dispositions concernant les contrats individuels à capital variable enregistrés et non enregistrés

Un assureur doit :

- a) dans la notice explicative afférente à un contrat individuel à capital variable enregistré, indiquer que ce dernier n'est qu'un type d'instrument de capitalisation de revenu de retraite;
- b) si l'économie d'impôt, et non le report ou l'exonération d'impôt, est présentée comme un avantage procuré par un contrat individuel à capital variable enregistré, préciser que toute prestation versée sera ultimement ajoutée au revenu imposable;
- c) lorsque le rendement antérieur du fonds est mentionné, se conformer aux exigences du point 8.1, inclure la mise en garde prévue au point 5.2d) et :
 - i) préciser, lorsqu'un exemple du taux de croissance d'un fonds est basé sur le rendement antérieur de ce fonds ou de fonds analogues, ou encore sur un ou plusieurs indice(s), que ce rendement antérieur ne constitue pas une indication du rendement futur;
 - ii) indiquer le rendement antérieur, au minimum, pour des périodes de 1, 3, 5 et 10 ans. Si le fonds existe depuis moins de dix ans, indiquer son rendement antérieur au minimum pour des périodes de 1, 3 et 5 ans, selon le cas;
 - iii) si de l'information sur le rendement est donnée, couvrir, au minimum, des périodes de 1, 3, 5 et 10 ans ou, selon le cas, terminées une fin de mois civil ne précédant pas de plus de 3 mois la date de la première publication;
- d) lorsque l'annonce publicitaire fait état de périodes précises pour lesquelles les taux de rendement sur les placements s'appliquent, indiquer également toute restriction qui empêcherait le rachat avant l'expiration de telles périodes;
- e) si le droit au rachat des unités d'un fonds distinct est mentionné dans l'annonce publicitaire, indiquer toute restriction qui empêcherait l'exécution de cette demande de rachat;
- f) s'il est question de frais dans l'annonce publicitaire, énoncer ceux qui entrent en ligne de compte;
- g) lorsqu'il est mentionné dans l'annonce publicitaire que des frais ou des commissions se rattachent, ou non, à la souscription de contrats individuels à capital variable, énoncer aussi tous les frais applicables à cette souscription, de même que les frais de rachat qui peuvent être imposés;

h) si l'on précise qu'un contrat individuel à capital variable peut être enregistré (p. ex., à titre de REER), mentionner :

- i) le cas échéant, que l'enregistrement peut obliger à modifier certaines dispositions ordinairement prévues au contrat;
- ii) qu'il peut être préférable d'utiliser les contrats d'assurance vie enregistrés comme placements à long terme plutôt qu'à court terme;
- iii) que le souscripteur éventuel doit discuter de tous les aspects de l'enregistrement avec sa société ou son agent avant de souscrire un contrat individuel à capital variable enregistré, et

l'assureur doit s'abstenir de faire état d'économies d'impôt immédiates comme principal motif de souscription de contrats individuels à capital variable enregistrés, tels les REER, et ne pas insister sur la possibilité de retrait d'enregistrement peu de temps après l'établissement du contrat.

8.14 Comparaison de rendements de fonds distincts

Une communication commerciale ou une annonce publicitaire où est comparé le rendement d'un ou de plusieurs fonds distinct(s) à celui de l'indice des prix à la consommation, de l'indice des cours, de l'indice des obligations ou de tout autre indice, d'une moyenne, d'un certificat de placement garanti ou de tout autre certificat ou dépôt, d'un placement immobilier ou de tout autre placement de quelque nature que ce soit, y compris un autre fonds distinct, doivent :

- a) inclure toutes les données qui, si elles étaient connues, modifieraient probablement substantiellement les conclusions pouvant être raisonnablement tirées ou que laisse supposer la comparaison;
- b) présenter des données se rapportant à la (aux) même(s) période(s) pour tous les éléments comparés;
- c) si la comparaison porte sur le rendement d'un indice ou d'une moyenne et que le genre de comparaison s'y prête, décrire l'indice ou la moyenne, indiquer toute distinction importante entre la composition ou le calcul du rendement de l'indice ou de la moyenne et le portefeuille de placement du fonds distinct, et mentionner tout autre facteur susceptible de rendre la comparaison aussi juste que possible.

8.15 Exposés

Tout exposé donnant des exemples de valeurs capitalisées des sommes affectées à un contrat individuel à capital variable doit être accompagné d'une mention précisant que la valeur capitalisée peut être affectée à la constitution d'une rente à l'échéance du contrat ou, dans le cas des contrats d'assurance vie, au versement de capitaux-décès. Qu'il s'agisse d'un contrat de rente ou d'un contrat d'assurance vie, indiquer également le taux de croissance utilisé dans les exemples, ainsi que l'existence éventuelle d'une garantie, totale ou partielle, et, le cas échéant, la nature de cette garantie.

Le contenu de tout exposé doit satisfaire aux exigences minimales énoncées dans la ligne directrice de l'ACCAP sur les exposés en assurance vie, laquelle peut être modifiée de temps à autre.

8.16 Présentation des données standard sur le rendement

Il est recommandé à l'assureur d'adopter, en matière de présentation des données standard sur le rendement, un système analogue à celui que renferme le *Standards of Practice Handbook* de l'Association for Investment Management and Research (AIMR), tel que modifié de temps à autre.

PARTIE IX - RÉMUNÉRATION**9.1 L'assureur doit conclure une entente par écrit avec l'agent**

Un assureur offrant des contrats individuels à capital variable par l'intermédiaire d'agents ou de courtiers doit conclure une entente par écrit («contrat de l'agent») avec chaque agent ou agence constituée en personne morale autorisés à faire souscrire des contrats individuels à capital variable.

9.2 Publicité non autorisée

Aucune annonce publicitaire ou document portant sur les contrats individuels à capital variable ou faisant mention de ces derniers ne doivent être publiés, montrés ou distribués par l'agent sans l'autorisation écrite préalable de l'assureur. Ce dernier demeure assujéti aux règles relatives à la publicité de la Partie VIII des présentes lignes directrices.

9.3 Commission de suivi

Si l'agent a droit à une commission de suivi versée par l'assureur ou le gestionnaire du fonds distinct et que cette commission est imputée à l'actif du fonds, les souscripteurs éventuels doivent en être informés, de même que des services qu'ils peuvent ainsi s'attendre à recevoir, par le biais de la notice explicative.

Conformément à l'article 12 de la Formule 1, l'assureur doit fournir dans la notice explicative des détails sur cette commission si cette dernière est imputée à l'actif du fonds distinct.

9.4 Ratio des frais de gestion

- 1) Les états financiers vérifiés d'un fonds distinct doivent présenter, sous forme de tableau, le ratio des frais de gestion pour chaque catégorie de frais au choix prévue par un contrat individuel à capital variable et ce, pour chacun des cinq derniers exercices complets du fonds distinct, avec une brève description de la méthode utilisée pour le calculer.
- 2) Lorsque la base de calcul des frais de gestion et autres frais à la charge du fonds distinct est modifiée ou que l'on propose de la modifier, et que la modification en cause aurait un effet important sur le ratio des frais de gestion du dernier exercice du fonds si on l'appliquait à cet exercice, la notice explicative doit indiquer l'effet du changement.
- 3) Dans le cas où l'une des périodes mentionnées au paragraphe 9.4(1) couvre moins de 12 mois, le ratio des frais de gestion est calculé sur une base annuelle, avec une indication de la période couverte et du calcul sur une base annuelle.
- 4) Le ratio des frais de gestion d'un fonds distinct applicable à une catégorie de frais au choix donnée en vertu d'un contrat individuel à capital variable, pour un exercice donné, s'obtient en divisant le total des frais payés ou à payer par le fonds au cours ou à l'égard de cet exercice, lequel total est attribuable à la catégorie de frais au choix en cause, par le montant de la valeur moyenne de l'actif net du fonds attribuable à cette catégorie de frais au choix pour cet exercice, et en multipliant le chiffre obtenu par 100. Aux fins de ce calcul, s'entend par :
 - a) «valeur moyenne de l'actif net» : la moyenne des sommes obtenues comme valeur de l'actif net attribuable à la catégorie de frais au choix donnés et ce, à la clôture du marché chaque jour de l'exercice où cette valeur doit être établie de temps à autre en la manière décrite à l'article 2 de la Formule 1;
 - b) «frais», dans le cadre du point 9.4 : toutes les dépenses payées ou à payer par le fonds distinct à l'exception des frais de courtage sur l'achat et la vente de titres du portefeuille, des intérêts (le cas échéant) et des impôts et taxes auxquels le fonds est soumis.

- 5) Les états financiers vérifiés du fonds distinct doivent donner des détails satisfaisants sur les frais à la charge du fonds au cours de la période couverte par les états financiers, le cas échéant.

PARTIE X - PLACEMENTS**10.1 Politique de placement du fonds distinct**

- 1) L'assureur doit faire figurer dans la notice explicative un bref énoncé de la politique de placement du fonds distinct, dans lequel seront spécifiés :
 - a) les objectifs du fonds, le style de gestion du portefeuille du fonds ou les paramètres du portefeuille;
 - b) l'affectation des revenus du fonds;
 - c) au moins les principaux risques suivants, si le fonds y est exposé : risque de taux, risque de change, risque de crédit, risque souverain, risque de marché, risque lié à la concentration sectorielle des actions, risque lié à l'immobilier, risque lié aux instruments dérivés; le recours ou l'absence de recours au levier financier et, s'il y a recours, la méthode employée pour contrôler le risque qui y est associé (fonds secondaire ou diversification, par exemple).
- 2) L'assureur est tenu de respecter les limitations ci-après.
 - a) Le pourcentage de l'actif du fonds pouvant être affecté à une société est limité à 10 p. 100. L'affectation peut prendre la forme d'un placement dans les titres émis par la société, de prêts consentis à cette société et inscrits dans les états financiers, ou de crédits («montant d'équivalent-crédit») consentis à celle-ci.
 - b) Le pourcentage des titres d'une émission d'une société pouvant être acquis est limité à 10 p. 100 pour chaque catégorie de titres, exception faite de ceux émis ou garantis par un gouvernement au Canada.
 - c) L'assureur ne peut effectuer de placements dans les titres d'une société dans le but de prendre le contrôle ou la direction de cette société. Toutefois, s'il a ultérieurement le contrôle ou la direction d'une société en raison de l'évolution du marché, par exemple à la suite d'opérations de cession de blocs, le contrôle ou la direction qui lui échoit échappe à l'interdiction ci-dessus.
 - d) Lorsque plus de 10 p. 100 de la valeur de marché du fonds sont ou seront placés dans des créances hypothécaires, l'assureur doit indiquer la méthode employée pour déterminer la valeur de marché des créances. Cette méthode doit prévoir la répartition des créances entre diverses catégories, en fonction du risque qu'elles représentent; le capital des créances de chaque catégorie doit être évalué d'après les critères suivants : taux de rendement courant; durée moyenne pondérée; rapport entre les taux d'intérêt courants et le taux d'intérêt des créances; réglementation des prêts hypothécaires intégrants, s'il y a lieu.
 - e) Lorsque plus de 10 p. 100 de la valeur de marché du fonds sont ou seront placés dans des immeubles de rapport, l'assureur doit indiquer la méthode employée pour déterminer la valeur de marché de ces immeubles. Cette méthode doit respecter les principes suivants : la valeur de marché initiale doit correspondre au coût d'acquisition, honoraires et autres frais compris; chaque bien doit être évalué par un évaluateur qualifié indépendant au moins tous les trois ans; chaque bien doit être évalué par un évaluateur qualifié au moins une fois par année, l'évaluation pouvant consister en une mise à jour des évaluations précédentes; pour les dates où aucune évaluation n'est disponible, l'assureur doit

fournir une valeur de marché mensuelle; les évaluations d'une année donnée doivent être effectuées à intervalles réguliers; lorsque l'état d'un immeuble change fortement et que cela risque d'avoir un effet important sur la valeur de marché de l'actif du fonds, l'assureur doit veiller immédiatement à faire évaluer l'immeuble par un évaluateur qualifié indépendant et rajuster la valeur de l'immeuble à la date d'évaluation mensuelle qui suit la date à laquelle l'évaluation est effectuée.

10.2 Instruments dérivés

1) Dans un portefeuille sans levier

Lorsque la politique de placement du fonds distinct exclut le levier, la valeur nominale des instruments dérivés auxquels le fonds est partie ne peut dépasser 100 p. 100 de la valeur liquidative du fonds, sous réserve d'une variation à court terme de 2 p. 100 pour fluctuations de la devise dans laquelle sont offertes les unités du fonds. Si les positions en cours sont de nature à augmenter le patrimoine du fonds (positions acheteur en contrats à terme normalisés, swaps et options d'achat, positions vendeur en options de vente, par exemple), le montant des liquidités du fonds et des dépôts de garantie qu'il a constitués doit être égal au montant nominal des contrats en portefeuille. Si, au contraire, les positions en cours sont de nature à réduire le patrimoine (positions vendeur en contrats à terme normalisés, swaps et options d'achat, positions acheteur en options de vente, par exemple), le fonds doit avoir en portefeuille les actifs sous-jacents ou une position acheteur équivalente d'un montant égal au montant nominal des contrats en portefeuille.

Les instruments dérivés peuvent être affectés à la couverture de positions inscrites dans les états financiers ou déclarées dans les notes y afférentes, à la production de revenus (vente d'options d'achat couvertes), ou à la reproduction d'un indice.

Si le recours aux dérivés vise à modifier la situation de l'actif et la situation de change du fonds, le montant nominal des dérivés associés à l'actif doit être calculé indépendamment de celui des dérivés associés au change, de façon que les positions de change ne puissent à elles seules dépasser l'actif net du fonds.

2) Dans un portefeuille avec levier

Lorsque la politique de placement du fonds prévoit explicitement le recours ou la faculté de recours au levier, les instruments dérivés peuvent être affectés au levier, aux conditions ci-après.

- a) Le fonds ne peut affecter plus de 20 p. 100 de son actif net à une stratégie donnée de négociation avec levier.
- b) Le fonds doit isoler chaque stratégie de négociation avec levier dans un fonds secondaire à responsabilité limitée afin de se protéger de la perte de plus de 20 p. 100 de son actif net pour cette stratégie.
- c) Le gestionnaire du fonds effectue tous les trois mois les études de gestion des risques jugées nécessaires pour s'assurer que chaque stratégie avec levier prévue pour le fonds est relativement indépendante des autres stratégies avec levier (faible corrélation, etc.).
- d) Le souscripteur doit être informé, dans la notice explicative, des degrés de risque, historique et anticipé, du fonds, calculés avec diverses mesures telles que l'écart type.

3) Instruments dérivés négociés de gré à gré

Les instruments dérivés négociés de gré à gré sont assujettis aux normes ci-après.

- a) Il faut calculer au moins une fois par mois le montant des contrats avec chaque contrepartie; la part que représente chaque contrepartie, à laquelle est ajoutée toute part inscrite dans les états financiers, ne doit pas dépasser 10 p. 100 de l'actif net du fonds.
- b) Le gestionnaire du fonds ne peut conclure de contrat au nom du fonds avec le promoteur de ce dernier (à savoir l'assureur) ni avec une société contrôlée par le promoteur ou qui a le contrôle soit du promoteur, soit d'une société contrôlant le promoteur.

4) Évaluation des instruments dérivés

Les positions doivent être évaluées à la valeur de marché.

En cas de vente d'un contrat d'option couvert, négocié en bourse ou hors bourse ou portant sur un contrat à terme normalisé, la prime perçue par le fonds constitue un crédit différé, lequel est évalué à la valeur de marché du contrat d'option en sens inverse qui permettrait de dénouer l'opération. Tout écart de réévaluation constitue une perte ou un profit latents. Les débits et crédits différés entrent dans le calcul de la valeur liquidative du fonds. Si l'actif sous-jacent du contrat d'option vendu, en bourse ou hors bourse, consiste en valeurs mobilières, celles-ci sont évaluées à la valeur de marché.

La valeur d'un contrat à terme, normalisé ou négocié de gré à gré, correspond au profit ou à la perte qui serait réalisé en cas de dénouement de l'opération à la date de l'évaluation; si, toutefois, il y a des limites journalières, la juste valeur correspond à la valeur de marché de l'actif sous-jacent.

Le dépôt de garantie des contrats à terme, normalisés ou négociés de gré à gré, constitue une créance à porter au poste débiteurs; s'il n'est pas en espèces, il fait l'objet de la mention «dépôt de garantie».

Conformément au point 13.2(4)e), la valeur des contrats d'option vendus en bourse, des positions en contrats à terme normalisés et des positions en contrats à terme négociés de gré à gré, déterminée conformément à la présente section, doit être indiquée dans l'état des titres en portefeuille du fonds.

10.3 Placements dans un autre fonds

En dépit de ce que prévoit le point 10.1(2), le fonds distinct («fonds principal») peut faire des placements dans un fonds secondaire, aux conditions ci-après.

- a) Des renseignements suffisants sur le recours à cette pratique sont fournis dans la notice explicative.
- b) Le fonds principal établit la valeur des unités.
- c) Des renseignements sont fournis, dans la notice explicative, sur les frais de gestion ou d'acquisition exigés par les fonds principal et secondaire. Ces frais doivent entrer dans le calcul du ratio des frais de gestion du fonds principal. Si le fonds principal fait un placement dans un fonds secondaire du même assureur ou d'une société contrôlée par l'assureur ou qui a le contrôle soit de l'assureur, soit d'une société contrôlant l'assureur, les frais de gestion ou d'acquisition ne doivent pas être exigés en double.
- d) Si plus de 20 p. 100 de l'actif du fonds principal sont placés dans un fonds secondaire, les éléments d'actif en cause doivent être énoncés dans la notice explicative, sauf s'ils sont énoncés dans les états financiers vérifiés du fonds principal.
- e) La politique de placement du fonds principal continue de s'appliquer.

10.4 Placements illiquides

Les valeurs qui n'ont ni cotation ni marché où elles puissent être normalement négociées sont réputées illiquides même si elles ont trouvé un acheteur. Ce sont, entre autres, les parts de sociétés en commandite non inscrites à une cote, les valeurs qui ne sont pas traitées sur un marché organisé et les contrats d'option négociés de gré à gré à des fins autres que de couverture. Cependant, si ces derniers sont conclus à des fins de couverture conformément au point 10.2(2) des présentes lignes directrices, ils ne sont pas réputés illiquides. Les placements effectués dans des instruments à responsabilité limitée ou dans des fonds secondaires pour couvrir le risque de perte excessive en cas de recours au levier ne sont pas non plus réputés illiquides, à condition que les valeurs sous-jacentes ne soient pas elles-mêmes illiquides.

Sous réserve des normes particulières ci-après visant certaines catégories de fonds distincts, le fonds distinct ne peut, sans préavis écrit aux responsables de la réglementation d'assurance concernés, placer plus de 10 p. 100 de son actif net (à la valeur de marché au moment du placement) dans des valeurs illiquides.

10.5 Immeubles

- 1) Lorsque le fonds distinct fait des placements immobiliers, sa politique de placement doit contenir l'énumération des achats et ventes d'immeubles effectués par l'assureur pour le fonds au cours des cinq dernières années. En outre, elle doit spécifier les principes ci-après.
 - a) Le fonds ne peut effectuer de placements immobiliers que pour en tirer un revenu.
 - b) Le fonds ne peut faire de placements dans des terrains vierges ou non développés.
 - c) L'assureur ne peut effectuer de cession ou de transfert d'immeubles entre un fonds distinct et un autre de ses fonds qu'à la juste valeur déterminée par un évaluateur qualifié indépendant.
 - d) Les immeubles ne peuvent représenter plus de 10 p. 100 de l'actif du fonds, sauf s'il s'agit d'un fonds immobilier.
 - e) Le fonds ne peut effectuer de placements immobiliers que si son actif net est égal ou supérieur à 10 millions de dollars.
 - f) Si les immeubles de rapport représentent ou sont appelés à représenter plus de 10 p. 100 de la valeur de marché du fonds, énoncer les méthodes retenues pour la détermination de la valeur de marché des immeubles, ces méthodes devant respecter les principes ci-après.
 - i) La valeur de marché d'origine correspond au coût d'acquisition, honoraires et autres frais compris.
 - ii) Un évaluateur qualifié indépendant doit évaluer chaque bien immobilier au moins tous les trois ans.
 - iii) Un évaluateur qualifié doit évaluer chaque bien immobilier au moins une fois par an; l'évaluation peut consister en une mise à jour de la dernière évaluation.
 - iv) L'assureur doit déterminer une valeur de marché mensuelle aux dates pour lesquelles il ne dispose pas d'une évaluation; il doit se baser sur le prix qu'il obtiendrait de l'immeuble s'il le vendait sur le marché libre, dans un délai raisonnable, à un acquéreur averti.
 - v) Toutes les évaluations d'une année donnée doivent être prévues de façon que la valeur de marché de chaque bien immobilier soit déterminée à intervalles réguliers pendant l'année.

vi) L'assureur doit veiller à ce que le contenu des rapports d'évaluation et les méthodes d'évaluation employées pour l'établissement de ces rapports soient conformes aux normes minimales de l'Institut canadien des évaluateurs, lesquelles figurent dans les *Uniform Standards of Professional Appraisal Practice with the Canadian Supplement* et dans le *Handbook for Appraisal Guidelines*.

vii) Lorsque l'état d'un immeuble subit des changements importants susceptibles de modifier la valeur de marché du fonds, l'assureur doit veiller immédiatement à faire évaluer l'immeuble par un évaluateur qualifié indépendant, et à rajuster la valeur de l'immeuble à la date d'évaluation mensuelle qui suit la date à laquelle l'évaluation est effectuée.

- g) Lorsque les immeubles représentent plus de 30 p. 100 de la valeur liquidative du fonds, un plancher de liquidités doit être fixé comme suit :

Valeur liquidative du fonds	Plancher de liquidités
De 10 000 000 \$ à 20 000 000 \$	10 p. 100 de la valeur liquidative du fonds
De 20 000 000 \$ à 30 000 000 \$	2 000 000 \$ plus 9 p. 100 de la valeur liquidative en excédent de 20 000 000 \$
De 30 000 000 \$ à 40 000 000 \$	2 900 000 \$ plus 8 p. 100 de la valeur liquidative en excédent de 30 000 000 \$
De 40 000 000 \$ à 50 000 000 \$	3 700 000 \$ plus 7 p. 100 de la valeur liquidative en excédent de 40 000 000 \$
50 000 000 \$ et plus	4 400 000 \$ plus 6 p. 100 de la valeur liquidative en excédent de 50 000 000 \$

- 2) Le fonds ne peut effectuer de placements dans des immeubles dans le cadre d'une coentreprise qu'aux conditions ci-après.
 - a) La transmission des intérêts du fonds dans la coentreprise ne fait l'objet d'aucune limitation autre que le droit de préemption des autres parties à la coentreprise.
 - b) Le fonds a un droit de préemption sur les intérêts des autres parties à la coentreprise.
 - c) La convention de coentreprise prévoit un mécanisme de rachat permettant au fonds d'exiger des autres parties à la coentreprise qu'elles lui achètent ses intérêts ou lui vendent les leurs.
- 3) Le fonds ne peut louer ni sous-louer d'immeubles, de locaux ou de superficies à une personne, s'il en résulte, pour cette personne et ses apparentés, une location ou sous-location d'immeubles, de locaux ou de superficies dont la juste valeur de marché, nette de droits réels, est supérieure à 20 p. 100 de la valeur liquidative du fonds.
- 4) Le fonds ne peut être partie à une opération supposant l'achat d'un immeuble ou l'amélioration de cet immeuble et sa location au vendeur, si la juste valeur de marché, nette de droits réels, de l'immeuble et des autres immeubles loués par le fonds au vendeur et à ses apparentés est supérieure à 20 p. 100 de la valeur liquidative du fonds.
- 5) Il ne peut être souscrit d'unités d'un fonds immobilier dans le cadre d'un contrat individuel à capital variable que si la prime de ce contrat est intégralement payée en espèces. Il ne peut être établi de contrats individuels à capital variable, directement ou non, en contrepartie d'immeubles ou de services. L'acquisition d'un immeuble par un fonds ne peut être subordonnée à la souscription, par le vendeur, de contrats individuels à capital variable afférents au fonds.

- 6) Il ne peut être fait de placement dans un bien immobilier donné qui représente plus de 10 p. 100 de la valeur de marché de l'actif du fonds au moment du placement, sauf lorsque la somme à placer a été transférée dans le fonds par l'assureur dans le cadre de la constitution du fonds, auquel cas cette somme ne peut être affectée qu'à hauteur de 25 p. 100 maximum à un bien immobilier donné.
- 7) S'il n'est pas spécifié dans la notice explicative du fonds que celui-ci se réserve le droit d'acquérir des immeubles à son gré, le fonds ne peut, à moins qu'il ne s'agisse d'un fonds immobilier, être partie à des acquisitions d'immeubles autres que ceux faisant l'objet d'une saisie pour défaut de paiement de créances hypothécaires détenues par le fonds.
- 8) Si, à une date de rachat, un fonds immobilier n'est pas en mesure de racheter tous les contrats individuels à capital variable faisant l'objet des ordres de rachat, les rachats sont effectués au prorata.

10.6 Créances hypothécaires

- 1) Lorsque le fonds distinct fait des placements hypothécaires, sa politique de placement doit spécifier les principes ci-après.
 - a) Il ne peut être fait de placement dans une créance hypothécaire qui représente plus de 5 p. 100 de la valeur de marché de l'actif du fonds au moment du placement, sauf lorsque la somme à placer a été transférée dans le fonds par l'assureur dans le cadre de la constitution du fonds, auquel cas cette somme ne peut être affectée qu'à hauteur de 25 p. 100 maximum à une créance hypothécaire donnée.
 - b) L'assureur ne peut effectuer de cessions ni de transferts de créances hypothécaires entre le fonds distinct et un autre de ses fonds. Font exception les créances hypothécaires approuvées ou assurées en vertu de la *Loi nationale sur l'habitation (Canada)*, lesquelles doivent être transmises à la valeur de marché. La cession ou le transfert d'une créance hypothécaire au fonds distinct par un autre fonds de l'assureur, effectué dans les 60 jours de la première avance hypothécaire, n'est pas considéré comme une cession ou un transfert lorsqu'il n'y a pas eu de modification importante de la valeur depuis la date de l'avance. Toutefois, les cessions ou les transferts sont autorisés à condition d'être effectués à la juste valeur, déterminée par un évaluateur qualifié indépendant.
 - c) Si les créances hypothécaires représentent ou sont appelées à représenter plus de 10 p. 100 de la valeur de marché du fonds, les méthodes retenues pour la détermination de la valeur de marché des créances doivent être énoncées, et respecter les principes ci-après.
 - i) Les créances doivent être réparties par catégories de risques. Certaines entreront dans leur catégorie propre (créances sur immeubles donnés à bail, créances sur prêts participatifs, créances sur terrains, créances sur immeubles en construction, défaillances de plus de 6 mois, par exemple).
 - ii) Les créances de chaque catégorie sont évaluées d'après le capital qui produira le taux de rendement courant des nouvelles créances émises dans cette catégorie, compte tenu de l'hypothèse de durée moyenne pondérée retenue. Se reporter à la durée restant jusqu'à l'échéance, à la durée restant jusqu'à la date à laquelle le remboursement peut

être effectué, ainsi qu'au rapport entre le taux d'intérêt de la créance et les taux pratiqués sur le marché pour cette catégorie de créances.

- iii) Pour calculer la valeur d'un prêt hypothécaire intégrant, évaluer séparément ce prêt et le prêt d'origine, suivant la méthode énoncée à l'alinéa ii), et déduire la valeur du prêt d'origine de celle du prêt intégrant.

- d) Lorsque les créances hypothécaires représentent plus de 30 p. 100 de la valeur liquidative du fonds, un plancher de liquidités doit être fixé comme suit :

Valeur liquidative du fonds	Plancher de liquidités
Moins de 1 000 000 \$	25 p. 100 de la valeur liquidative du fonds
De 1 000 000 \$ à 2 000 000 \$ exclusivement	20 p. 100 de la valeur liquidative ou 250 000 \$, si cette somme est supérieure
De 2 000 000 \$ à 5 000 000 \$ exclusivement	15 p. 100 de la valeur liquidative ou 400 000 \$, si cette somme est supérieure
5 000 000 \$	10 p. 100 de la valeur liquidative ou 750 000 \$, si cette somme est supérieure

- 2) Le fonds ne peut effectuer de placements dans des créances hypothécaires avant que son actif net atteigne 350 000 \$.
- 3) Les créances hypothécaires ne peuvent représenter plus de 10 p. 100 de l'actif du fonds, sauf s'il s'agit d'un fonds hypothécaire. Ne sont admises que les créances sur des immeubles situés au Canada, et à hauteur de 75 p. 100 maximum de la juste valeur de marché de l'immeuble si elles ne sont pas assurées, cette juste valeur devant être établie par un évaluateur qualifié.
- 4) Les fonds hypothécaires doivent respecter, outre les normes générales énoncées dans les présentes lignes directrices, les normes supplémentaires ci-après.
 - a) «Liquidités» s'entend :
 - i) des espèces et des bons du Trésor ou autres emprunts émis ou intégralement garantis, capital et intérêts, par :
 - A) le gouvernement du Canada, d'une province ou d'un territoire du Canada ou un organisme relevant d'un de ces gouvernements;
 - B) le gouvernement des États-Unis, de toute subdivision politique des États-Unis ou de tout État souverain, ou encore par tout organisme supranational, à condition que les titres bénéficient d'une notation approuvée;
 - C) une institution financière canadienne, au sens de la *Loi sur les sociétés d'assurances* du Canada, à condition que les titres bénéficient d'une notation approuvée;
 - ii) des titres adossés à des créances hypothécaires assurées en vertu de la LNH ou d'une loi provinciale.

- b) Le fonds doit respecter les planchers de liquidités ci-après.

Valeur liquidative du fonds	Plancher de liquidités
Moins de 1 million	100 000 \$
De 1 à 2 millions	10 p. 100
De 2 à 5 millions	200 000 \$ + 9 p. 100 des 3 millions suivants
De 5 à 10 millions	470 000 \$ + 8 p. 100 des 5 millions suivants
De 10 à 20 millions	870 000 \$ + 7 p. 100 des 10 millions suivants
De 20 à 30 millions	1 520 000 \$ + 6 p. 100 des 10 millions suivants
Plus de 30 millions	2 170 000 \$ + 5 p. 100 de l'excédent

- c) Le fonds ne peut effectuer de placements dans des immeubles commerciaux, industriels ou résidentiels de plus de 8 unités avant que son actif net atteigne 15 millions de dollars.

- 5) Si, à une date de rachat, un fonds hypothécaire n'est pas en mesure de racheter tous les contrats individuels à capital variable faisant l'objet des ordres de rachat, les rachats sont effectués au prorata.

10.7 Emprunts

- 1) L'assureur ne peut affecter en garantie, pour le compte d'un fonds distinct, des éléments d'actif du fonds, sauf (i) lors d'une acquisition ou du renouvellement des garanties; (ii) à titre temporaire, pour faciliter l'exécution des ordres de rachat d'unités du fonds tout en procédant avec méthode aux cessions de titres nécessaires, l'encours des emprunts contractés à ces fins ne devant pas excéder 5 p. 100 de la valeur de marché de l'actif net du fonds au moment d'un emprunt donné; ou (iii) conformément aux points 10.7(2) et (3) ci-dessous.
- 2) Un fonds distinct immobilier ne peut prendre en charge ou contracter un emprunt garanti par l'hypothèque d'un immeuble donné que si à la date à laquelle il prévoit prendre en charge ou contracter l'emprunt il satisfait aux deux conditions suivantes :
 - a) la somme des emprunts garantis par cet immeuble et de l'emprunt nouveau ne dépasse pas 75 p. 100 de la valeur de marché de l'immeuble;
 - b) la somme des emprunts hypothécaires du fonds et de l'emprunt nouveau ne dépasse pas 50 p. 100 de la valeur de l'actif total du fonds.
- 3) L'assureur ne peut garantir, directement ou indirectement, pour le compte d'un fonds distinct immobilier, d'emprunt ni d'autre engagement de quelque type que ce soit, à l'exception des emprunts hypothécaires pris en charge ou contractés par une filiale à part entière de l'assureur n'ayant pour objet que de détenir un ou plusieurs immeubles pour le compte du fonds, et à condition que ces emprunts, s'ils sont contractés directement, ne dérogent pas aux dispositions du point 10.7(2).

10.8 Opérations avec apparentés

Le fonds doit acquérir ses titres de placement à un prix fondé sur la valeur de marché; s'il fait son acquisition en dehors du marché, il doit se fonder sur le prix qu'il aurait négocié de façon raisonnable avec un non-apparenté.

PARTIE XI - PARTITION DES ÉLÉMENTS D'ACTIF DÉTENUS DANS LES FONDS DISTINCTS

11.1 Généralités

La présente partie s'applique aux partitions d'éléments d'actif à l'intérieur d'un fonds distinct, autres que celles effectuées dans le cadre des opérations comptables internes propres au cours normal des affaires, qui sont entreprises aux fins d'une fusion ou de toute autre restructuration du fonds distinct.

11.2 Répartition équitable

Lorsqu'un assureur veut répartir les éléments d'actif à l'intérieur d'un fonds distinct, il doit faire en sorte que cette partition soit équitable pour tous les souscripteurs de contrats à capital variable et ce, qu'il s'agisse de contrats enregistrés ou non enregistrés, individuels ou collectifs.

11.3 Avis aux souscripteurs

Doit être envoyé par la poste à tous les souscripteurs - à leur dernière adresse connue - un avis annonçant une partition des éléments d'actif à l'intérieur d'un fonds distinct au moins 60 jours au préalable. Si la partition est effectuée conjointement avec une fusion de fonds distincts, l'avis doit renfermer une description des deux opérations, et être conforme aux exigences de la Partie XII des présentes lignes directrices. Si la partition n'est pas liée à une telle fusion, l'avis doit exposer les raisons pour lesquelles l'assureur a décidé d'y procéder. L'avis doit également être envoyé aux responsables de la réglementation d'assurance concernés.

11.4 Modalités des contrats

L'assureur est tenu de veiller à ce que toute partition des éléments d'actif à l'intérieur d'un fonds distinct soit conforme aux modalités des contrats à capital variable individuels et collectifs afférents au fonds en cause.

PARTIE XII - FUSION DE FONDS DISTINCTS

12.1 Fusion de fonds distincts détenus par un même assureur

Un assureur offrant des fonds distincts à titre de placements en vertu de contrats individuels à capital variable peut, de temps à autre, souhaiter fusionner deux ou plusieurs de ses fonds distincts. Les étapes ci-dessous doivent alors être suivies.

- a) Il faut déposer les documents relatifs à la fusion auprès des responsables de la réglementation d'assurance concernés et respecter les exigences ci-après.
 - i) Inclure tous les documents juridiques et financiers exposant les caractéristiques des fonds dont la fusion est proposée («fonds d'origine»), y compris une liste des souscripteurs en cause.
 - ii) Donner une description de la méthode de fusion (fusion verticale simplifiée, par exemple), des fonds d'origine ainsi que des détails relatifs à la gestion et à la garde des titres du fonds issu de la fusion («nouveau fonds»), y compris des précisions sur la partition des éléments d'actif des fonds d'origine, conformément à la Partie XI des présentes lignes directrices.
 - iii) Indiquer les droits des titulaires de contrats afférents au nouveau fonds, y compris les détails ayant trait au respect des garanties, des droits et des dates d'échéance des contrats.
 - iv) Fournir tout autre renseignement relatif à l'une ou l'autre des étapes décrites ci-haut demandé par les responsables de la réglementation d'assurance concernés.

- b) L'assureur doit faire parvenir un avis écrit aux titulaires de contrats afférents aux fonds d'origine, par la poste et à leur dernière adresse connue et ce, au moins 60 jours avant la date de la fusion proposée.
- c) L'avis écrit exigé au point b) ci-haut doit comporter une option permettant aux titulaires de contrats afférents aux fonds d'origine d'encaisser la valeur de leur contrat individuel à capital variable sans payer de frais de rachat, à condition de faire connaître leur choix par écrit à l'assureur au moins 5 jours ouvrables avant la date de la fusion proposée.
- d) L'avis écrit exigé au point b) ci-haut doit clairement indiquer que le souscripteur qui décide d'encaisser la valeur de son contrat individuel à capital variable plutôt que de maintenir ce dernier en vigueur après la fusion recevra la juste valeur de marché de la part du fonds distinct d'origine à laquelle il a droit en vertu de ce contrat mais non le capital garanti, à moins que le contrat ne soit arrivé à échéance ou que le capital garanti ne corresponde au capital assuré.

12.2 Fusion de fonds distincts détenus par différents assureurs

Des assureurs peuvent souhaiter fusionner des fonds distincts (fonds d'origine) pour en faire un nouveau fonds à la suite de la fusion des sociétés elles-mêmes ou dans le cadre de la vente d'un bloc d'affaires. Les étapes ci-après doivent alors être suivies.

- a) L'assureur responsable du nouveau fonds doit déposer les documents relatifs au nouveau fonds (à savoir celui résultant de la fusion des fonds d'origine) auprès des responsables de la réglementation d'assurance concernés, et respecter les exigences ci-après.
 - i) Inclure tous les documents juridiques et financiers exposant les caractéristiques des fonds d'origine.
 - ii) Donner une description de la méthode de fusion des fonds d'origine et des dispositions prises à l'égard du nouveau fonds, y compris des précisions sur la partition des éléments d'actif des fonds d'origine, conformément à la Partie XI des présentes lignes directrices.
 - iii) Inclure une copie de la convention de cession et de prise en charge des affaires signées par les assureurs ayant établi les fonds d'origine à l'égard de l'actif et du passif qui reviendront au nouveau fonds, y compris une copie de l'attestation de prise en charge dûment signée.
 - iv) Indiquer les droits des titulaires de contrats afférents au nouveau fonds, y compris les détails ayant trait au respect des garanties, des droits et des dates d'échéance des contrats.
 - v) Fournir tout autre renseignement relatif à l'une ou l'autre des étapes décrites ci-haut demandé par les responsables de la réglementation d'assurance concernés.
- b) L'assureur responsable du nouveau fonds doit respecter toutes les garanties et dates d'échéance liées aux fonds d'origine.
- c) Chacun des assureurs en cause doit envoyer par la poste, à tous les titulaires de contrats afférents aux fonds d'origine à leur dernière adresse connue, un avis écrit annonçant la fusion proposée.
- d) L'assureur responsable du nouveau fonds est tenu d'informer les souscripteurs de toute incidence fiscale d'importance pouvant résulter de la fusion proposée.
- e) L'avis écrit exigé au point c) ci-haut doit comporter une option permettant aux titulaires de contrats afférents aux fonds d'origine d'encaisser la valeur de leur contrat indivi-

duel à capital variable sans payer de frais de rachat, à condition de faire connaître leur choix par écrit à l'assureur au moins 5 jours ouvrables avant la date de la fusion proposée.

- f) L'avis écrit exigé au point c) ci-haut doit clairement indiquer que le souscripteur qui décide d'encaisser la valeur de son contrat individuel à capital variable plutôt que de maintenir ce dernier en vigueur après la fusion recevra la juste valeur de marché de la part du fonds distinct d'origine à laquelle il a droit en vertu de ce contrat mais non le capital garanti, à moins que le contrat ne soit arrivé à échéance ou que le capital garanti ne corresponde au capital assuré.

PARTIE XIII - OBLIGATIONS DE COMPTABILITÉ ET DE VÉRIFICATION

13.1 Généralités

1) Principes comptables

Les états financiers ayant trait au fonds distinct doivent être préparés conformément aux principes comptables généralement reconnus, dont la principale source est le Manuel de l'Institut Canadien des Comptables Agréés.

2) Normes de vérification

Le vérificateur doit, lors de l'examen des états financiers du fonds distinct, agir conformément aux normes de vérification généralement reconnues, dont la principale source est le Manuel de l'Institut Canadien des Comptables Agréés.

13.2 Exigences relatives aux états financiers

1) État des résultats

- a) L'état des résultats doit présenter une image fidèle des résultats des opérations du fonds pour la période couverte et pour la période avec laquelle celle-ci est comparée; doivent y figurer séparément, à tout le moins :
 - i) le revenu en dividendes;

EXPLORATION LICENCES AND PRODUCTION LEASES FOR OIL AND GAS IN ONTARIO

INTERPRETATION

1. In this Regulation,

"gas" means a mixture containing hydrocarbons that is located in or recovered from an underground reservoir and that is gaseous at the temperature and pressure under which its volume is measured or estimated;

"oil" means a mixture containing hydrocarbons that is located in or recovered from an underground reservoir, or recovered in processing, and that is liquid at the temperature and pressure under which its volume is measured or estimated.

EXPLORATION LICENCES

2. (1) The Minister may issue an exploration licence authorizing the licensee to explore for oil or gas, or both, on Crown lands lying south and east of the River Mattawa, Lake Nipissing and the French River.

(2) The Minister may offer for sale by tender the right to obtain a licence.

3. An applicant for a licence shall provide the Minister with,

- (a) a description of the area to be covered by the licence; and
- (b) the application fee for a licence as set out in the Schedule.

4. (1) Subject to subsection (2), applications for licences received during each of the following quarterly periods are considered after the end of each quarter:

1. January 1 to March 31.
2. April 1 to June 30.
3. July 1 to September 30.
4. October 1 to December 31.

(2) The Minister may, at any time, offer for sale by tender the right to obtain a licence if the Minister receives a written request to have an application for a licence considered other than in accordance with subsection (1) or if he or she considers it appropriate to do so.

5 (1) A licence shall be for a term of not more than five years and the anniversary date of every licence shall be deemed to be January 1 in each year.

(2) The Minister may extend the term of a licence for a period not exceeding 12 months if weather, water or other conditions prevent the licensee from carrying out exploration or drilling during the final year of the term of the licence and the licensee applies in writing to the Minister for the extension at least 30 days prior to its expiration and pays the fee for an extension set out in the Schedule.

(3) Any extension granted under subsection (2) is considered part of the final year of the term of the licence.

6. (1) A licensee has the sole and exclusive right to drill for oil or gas, or both, in the area described in the licence during the term of the licence.

(2) Drilling for oil by means of wells located in water covered areas and production of oil from such wells is prohibited despite any rights granted under a licence.

7. (1) A licence shall describe the area covered by the licence in accordance with the grid system, as shown on a plan filed in the Archives of Ontario at Toronto as No. 1495 or, if no grid system applies to the area, by description prepared under the instructions of the Minister.

(2) If the area to be covered by a licence is a water-covered area of Lake Erie, the minimum size of the area shall be one tract and the maximum size of the area shall be one block.

(3) If the area to be covered is an area other than a water-covered area of Lake Erie, the Minister shall specify the minimum and maximum size of an area to be covered by a licence on application or tendering.

(4) In this section, "tract" and "block" have the same meanings as they have with respect to Crown land descriptions as shown on Plan No. 1495 filed in the Archives of Ontario at Toronto.

8. (1) Subject to subsection (2), a licensee shall pay in advance the annual rental for a licence set out in the Schedule and, for the purpose of calculating the rental payable, one tract is equal to 255 hectares.

(2) If the first year of the term of a licence is less than 12 months, the rental for the first year shall be determined on a proportionate basis.

9. (1) A licensee who is in compliance with the *Petroleum Resources Act* and the regulations made under it may, with the Minister's consent, surrender a licence in whole or in part at any time upon giving written notice to the Minister at least 30 days before the surrender is proposed to take effect and paying the fee for a surrender set out in the Schedule.

(2) Despite subsection (1), if a licensee gives notice to the Minister for the surrender of a licence under that subsection within three months after the coming into force of this Regulation and the Minister consents

to the surrender, the effective date of the surrender shall be deemed to be December 31, 1996.

(3) If a surrender is accepted, the annual rental for the year of the term in which the surrender is made shall be that required for the area described in the licence prior to the surrender, but the annual rental for any subsequent year or years of the term shall be based on the remaining area described in the revised licence.

10. The Minister may reduce the rental payable for a licence in any year in which the licensee is prevented from carrying out exploration or drilling if a public authority having jurisdiction in the area in which the licensee was carrying out exploration or drilling directs the licensee to suspend such work or if weather, water or other conditions prevent such work from being carried out.

11. (1) A licensee who encounters oil while drilling for gas in a water-covered area shall surrender the licence with respect to the area that has been proven to reasonably contain oil.

(2) The licensee who surrenders a water-covered area under subsection (1) has a right of first refusal with respect to obtaining a lease to produce oil from the surrendered area if,

- (a) a lease to produce oil is granted; and
- (b) the licensee pays in advance an annual fee of \$1 per hectare per year to maintain that right.

(3) Despite subsection (1), a licensee who surrenders a water-covered area in the circumstances described in that subsection may, with the Minister's consent, retain the area for the purpose of exploring for gas at a shallower or deeper depth than that at which oil was discovered.

PRODUCTION LEASES

12. (1) A licensee who applies to the Minister for a lease shall be granted a lease for an area that formed all or part of the area described in the licence if the licensee demonstrates to the Minister's satisfaction that the area to be covered by the lease contains economically producible oil or gas.

(2) If the Minister is not satisfied that the licensee has demonstrated that the area to be covered in the lease contains economically producible oil or gas, the Minister may,

- (a) amend the application with respect to the area applied for and grant the lease; or
- (b) refuse to grant the lease.

(3) If the Minister offers for sale by tender the right to obtain a licence, the Minister may grant a lease to the successful purchaser of that right without first issuing a licence.

(4) The area to be covered by a lease shall conform to the size requirements of subsections 7 (2) and (3).

(5) An application for a lease for an area described by a grid system shall be accompanied by,

- (a) a description of the area in accordance with the grid system shown on a plan filed in the Archives of Ontario at Toronto as No. 1495 or any subsequently established grid system;
- (b) a summary of the technical data supporting and quantifying the discovery of economically producible oil or gas; and
- (c) the rent for the first year of the term of the lease.

(6) An application for a lease for an area that is not described by a grid system shall be accompanied by,

- (a) a Crown land reference plan prepared under the instructions of the Minister or any other description approved by the Minister;
- (b) a summary of the technical data supporting and quantifying the discovery of economically producible oil or gas; and
- (c) the rent for the first year of the term of the lease.

13. Drilling for oil by means of wells located in water-covered areas and production of oil from such wells is prohibited despite any rights granted under a lease.

14. (1) A lease shall be for a term of not more than ten years and the anniversary date of every lease shall be deemed to be January 1st in each year.

(2) If oil or gas is produced under a lease and production continues beyond the term of the lease, the Minister shall renew the lease, for successive periods of not more than ten years, with respect to those areas covered by the lease that remain productive.

15. (1) A lessee who is in compliance with the requirements of the *Petroleum Resources Act* and the regulations made under it may, with the Minister's consent, surrender a lease in whole or in part at any time upon giving written notice to the Minister at least 30 days before the surrender is proposed to take effect.

(2) If a surrender is accepted under subsection (1), the annual rental for the year of the term in which the surrender is made shall be that required for the area described in the lease prior to the surrender, but the annual rental for any subsequent year or years of the term shall be based on the remaining area described in the revised lease.

16. (1) A lessee shall pay in advance the annual rental for a lease set out in the Schedule.

(2) If the first year of the term of a lease is less than 12 months, the rental for the first year shall be determined on a proportionate basis.

17. (1) A lessee shall pay a royalty on the oil or gas produced from the area covered by the lease based on the full sale price of the oil or gas received by the lessee at the point at which the lessee transfers custody of the oil or gas to the purchaser, without any deduction for any of the lessee's or purchaser's costs.

(2) The lessee shall pay a royalty on oil at a rate of 12.5 per cent of the full sale price of the oil referred to in subsection (1).

(3) The lessee shall pay a royalty on gas at the percentage rate, as set out in the Schedule, of the full sale price of the gas referred to in subsection (1).

(4) Despite subsection (3), no royalty is payable in respect of any gas produced from the area covered by the lease that the lessee reasonably required and used as fuel for the production of oil or gas from the area.

(5) The royalty on oil or gas produced in a month is payable on or before the end of the month following the month in which the oil or gas is produced, unless otherwise directed by the Minister.

(6) On making a royalty payment, the lessee shall submit evidence of the full sale price of the oil or gas to which the royalty payment relates.

(7) The Minister may recalculate any royalty payment if the Minister determines that the full sale price of the oil or gas does not reflect its fair market value on the day of the sale, in which case the lessee shall pay

a royalty based on the fair market value of the oil or gas on that day and not on the full sale price.

18. (1) In this section,

"pool" means an underground accumulation of oil or gas or both, separated or appearing to be separated from any other underground accumulation;

"spacing unit" has the same meaning as in section 1 of the *Petroleum Resources Act*;

"unitization agreement" means an agreement providing for the combining of separately owned oil or gas interests in a pool, formation or field to permit the efficient and economical drilling for or production of oil, gas or other unitized substances.

(2) If the Crown's interest in oil or gas is within a spacing unit and all of the interests in the oil and gas in the spacing unit are combined under a pooling agreement, the Crown's percentage share of the production of oil or gas from the spacing unit,

(a) is the Crown's percentage share as set out in the agreement; or

(b) is equal to the percentage share by area of the Crown's interest in the oil and gas in the spacing unit in any other case.

(3) If the Crown's interest in oil or gas relates to land that is subject to a unitization agreement, the Crown's percentage share of the production of oil or gas from the land is as set out in the unitization agreement.

(4) When the Crown's percentage share of the production of oil or gas has been determined under subsection (2) or (3), the royalty payable to the Crown shall be calculated in accordance with section 17.

GENERAL

19. A licensee or lessee shall carry out all exploration, drilling and production operations in accordance with,

(a) the Act and this Regulation;

(b) the terms and conditions of the licence or lease;

(c) the *Petroleum Resources Act* and the regulations made under it; and

(d) any order of the Ontario Energy Board or of the Mining and Lands Commissioner.

20. On paying the fee set out in the Schedule, a licensee or lessee may, with the Minister's consent, transfer or assign to any other person the rights conferred under the licence or lease, as the case may be, with respect to the whole or any part of the area covered by the licence or lease, on condition that the licensee or lessee does not retain any interest in the area or part of an area transferred or assigned.

21. (1) Subject to subsections (2) and (3), the Minister may forthwith cancel a licence or terminate a lease without liability and without compensation to the licensee or lessee, as the case may be, if the licensee or lessee fails,

(a) to comply with the terms and conditions of the licence or lease;

(b) to comply with the Act or the *Petroleum Resources Act* or the regulations made under them;

(c) to comply with an order of the Ontario Energy Board or the Mining and Lands Commissioner;

(d) to make a rental or royalty payment as required by this Regulation; or

(e) to produce oil or gas under a lease on or before the fifth anniversary of the lease or during any five year period during the term of the lease.

(2) The Minister may not cancel a licence or terminate a lease under subsection (1) unless he or she delivers or sends by registered mail to the licensee or lessee at the licensee's or lessee's last address on record with the Ministry a notice setting out the default and requiring that it be remedied.

(3) If the licensee or lessee remedies the default within 30 days after delivery or receipt of the notice, the Minister shall not cancel the licence or terminate the lease.

(4) For the purposes of subsection (2), a notice of failure to comply sent by registered mail shall be deemed to have been received on the fifth day after the date of mailing, unless the contrary is shown.

(5) If a licence has been cancelled for failure to comply with a term of the licence, the Minister may cancel, in whole or in part, any or all other licences held by the licensee if, in the Minister's opinion, the licensee is unable to satisfactorily develop the area or areas covered by those licences because the licensee is financially insolvent or because the licensee is unable to meet the requirements of the *Petroleum Resources Act* and the regulations made under it.

22. The Minister may require that a licensee or lessee make and file a cadastral survey satisfactory to the Minister with respect to the position of any boundary that is uncertain or becomes the subject of a dispute.

TRANSITION

23. (1) Licences issued and leases granted under a predecessor of this Regulation shall be deemed to have been issued or granted under this Regulation and to be subject to the conditions and requirements of this Regulation.

(2) Land use permits issued under the *Public Lands Act* for the purposes of oil or gas exploration shall be deemed to be licences issued under this Regulation and to be subject to the conditions and requirements of this Regulation with respect to licences, except that

nothing in this Regulation affects the expiry dates of such land use permits.

(3) Rights of first refusal for obtaining a lease for producing oil acquired before the coming into force of this Regulation are continued but shall be subject to the \$1 per hectare per year maintenance fee referred to in clause 11 (2) (b).
